

Mary Lucille Winslow Weds Donal J. Bartel In Washington, D. C.

Wedding Is Solemnized In Petworth Baptist Church Sept. 18

Miss Mary Lucille Winslow, daughter of Mr. and Mrs. Thomas E. Winslow, Route 3, Edenton, and Donal J. Bartel, son of Mr. and Mrs. E. J. Ebert of Washington, D. C., were united in marriage Saturday afternoon, September 18, at 5:30 o'clock at the Petworth Baptist Church in Washington, D. C.

The officiating clergyman was the Rev. Lewis Morgan, pastor of the church.

The bride was given in marriage by her father. She wore a white lace ballerina length gown with finger tip veil.

Miss Gapie Frances Daniels was maid of honor, while bridesmaids were Betty Kilpatrick, Dorothy Baker and Gail Crouch. Iris Jean Bass of Edenton was flower girl.

The maid of honor wore a pastel blue ballerina length gown. The bridesmaids wore ballerina length gowns in shades of green, lilac and yellow with matching head pieces. The flower girl wore a gown of white net over pink satin.

Robert O. Allen served as best man and the ushers were Philip Ramson and Jimmy Gardner of Washington, D. C., and Frank Harper of Greenbelt, Md.

After the wedding a reception was held at the social hall of the church.

Following the reception the newlyweds left for a wedding trip to Niagara Falls, N. Y. For traveling the bride wore a blue knit suit with matching accessories.

Boy Sees With Plastic Eye!

Now that you've read that first sentence two or three times, go on to the next one:

He doesn't even need the plastic eye! He can take it out and still see!

The boy is eleven-year-old Ronald Coyne of Sapulpa, Oklahoma. Back in 1950, when Ronnie was seven, he lost the sight of his right eye, as many children do, by accidentally sticking a wire into it. Because of the danger of infection the eye was removed and replaced with a plastic eye.

The following June Ronnie attended a vacation Bible school at one of the local churches, and there received Jesus Christ as his own personal Saviour. About two weeks later he began to attend revival services sponsored by the local Assemblies of God Church. One night he went forward to ask the evangelist to pray that he wouldn't have to have his tonsils out (he didn't relish spending any part of his summer vacation in a hospital). The evangelist noticed his plastic eye, and asked him what was wrong with it. He answered that he was blind in that eye. He was asked if he believed God could restore sight in that eye. Ronnie said that he did believe God could. The evangelist, not knowing the eye was plastic, prayed to that effect, and God answered the prayer of faith. First he could see steps, then the microphone, and then he could count fingers. Today his public school physical record reads, "Plastic Eye. 20-20 Vision. (?)"

Is this authentic? On Friday, September 10, 1954, Ronnie was kind enough to grant me a personal interview. With his good eye completely covered (a folded handkerchief

pressed tightly against it) so that it was absolutely impossible for him to see through it, and with his plastic eye removed and lying on the table before him, he read without hesitation material I placed before him that he couldn't possibly have seen before. He is also able to read with his plastic eye in the socket.

Ronnie has been examined by qualified doctors, including former President Truman's family physician, and he has been interviewed by hard-boiled newspapermen. They are convinced, as I am, that this is a real miracle of healing.

Ronnie's favorite verse is: "Verily, verily I say unto you, He that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto my Father" (John 14:12).

Why doesn't God work more such miracles in our midst? I feel there are three reasons:

1. We don't expect Him to work such miracles. We are lacking in faith.

2. We desire God to work through us in order that we might receive honor and credit, not that God might be glorified. All our work for God must be done that He might receive glory, not that we might receive praise from our fellow men.

3. We desire such miracles for their curiosity value.

Ronnie and his mother hope to visit this section in the very near future. He is a very shy boy, not at all overbearing, and makes a very good impression. If any of you pastors would like more information, or would like to have him give his testimony to your people, please contact me. I have a tape-recording of my interview with him, and will play it for anyone who would like to hear it.

OPENS OFFICE IN DURHAM

Edenton friends will be interested to learn that Jack McMullan Pruden, son of Mrs. J. N. Pruden, has opened an office at 310 Snow Building in Durham, N. C. Mr. Pruden is an architect.

Field Day Program At Plymouth Last Week

New Soybean and Corn Varieties Shown and Explained

Tidewater Experiment Station Field Day was held on Wednesday afternoon of last week at Plymouth. Research work on new soybean varieties, new corn varieties, liquid nitrogen, and chemical weed control were shown and explained to agricultural workers and farmers.

The new soybean variety, "Lee", appears to be outstanding. It is a heavy yielder, shatter resistant and almost free of purple stain. The "Jackson" variety looks very good. The "Dor-man" variety is a good early variety.

Chemical weed control and liquid nitrogen were combined on corn. So-

lution 60 was the source of nitrogen. The corn received a pre-emergence application of 2-4-D about four or five days after planting. When the corn was 18 to 24 inches high a mixture containing liquid nitrogen and 2-4-D was sprayed on—being careful to spray only the base of the corn plants. This was applied varying rates in comparison with one, two and three cultivations. This method of applying nitrogen and 2-4-D is still in the experimental stage but shows very promising possibilities.

4-H Clubs Get Off To Good Beginning

Meetings were held in each of the schools last week for the purpose of organizing the 4-H Clubs for the school year. Officers were elected by the club members and committees were appointed. The clubs seem to be getting off to a good start this year.

The 4-H County Council met on Wednesday night of last week with the attendance of 32 club members.

ROTARIANS MEET TODAY
Edenton's Rotary Club will meet this (Thursday) afternoon at 1 o'clock in the Parish House. President William Wood is very anxious to register another 100 per cent meeting, so that all members are urged to attend. The program will be in charge of R. N. Hines.

Silencing Of Outboard Motors Is Now Solved

Engineering problems in silencing big-power outboards have been solved and the 10 and 25-horsepower models built by Johnson Motors henceforth will be "quiet", it is announced by Johnson Hardware Co., local dealer in Johnson products. The concern has been notified by the factory that silencing equipment of the type introduced in the firm's Sea-Horse 5½ last year has been adapted to the big motors. Both the quiet 10 and quiet 25 are expected to be in quantity production by late September.

IF YOU SMOKE you need

OLAG TOOTHPASTE

Exclusive formula: contains soothing, sanitizing oils: eases throat: mouth feels so clean: teeth look cleaner: dentists say "terrific, wonderful, best I've ever used, you can't beat it."

AT DRUG STORES EVERYWHERE

OLAG TOOTH PASTE

A Thoughtful Bequest

Among other things that you can leave to your family is a wise provision for the settlement of your estate. Your beneficiaries will be relieved of many problems if the duties of the Executor are placed in competent, experienced hands.

Our Trust Department is especially organized for this service which may be arranged by a simple clause in your Will. We invite an opportunity to discuss details, in cooperation with your attorney.
