

**BPW CLUB MEMBERS IN ACTION**

With Business and Professional Women's Week being observed this week, here is pictured a few of Edenton's business women. In the top picture is Mrs. Lena Leary, assistant Clerk of Court, at her desk. In the next picture is Miss Evelyn Leary, news reporter and photographer, who furnished these pictures. Next is Miss Minnie Hollowell explaining "Maple Syrup Time in Vermont" to Cecil Fry, a fifth grade pupil. Next is Mrs. Anne Jenkins trimming the hair before setting for a Mrs. White of California. In the bottom picture is Mrs. Beulah Boswell, who supervises her restaurant. All are members of the Edenton BPW Club.—(Photos by Miss Evelyn Leary).

If thou wouldst find much favor and My beloved brethren, be ye steadfast-peace with God and man, be very low fast, unmoveable, always abounding in thine own eyes. Forgive thyself in the work of the Lord, forasmuch as ye know that your labour is not in little and others much. —Leighton, vain in the Lord. —I Corinthians.

**30 Peanut Growers Make Tour In County**

**View New Varieties, Disease Resistance and Fertilizer Plots**

About 30 peanut growers toured peanut demonstrations in Chowan County last week. At Bertram Hollowell's near Cross Roads they observed the new NC-2 variety being grown for seed production. At A. M. Forehand's on Bandon Road they observed the new NC-1 variety.

In Wingfield on Wilbur Hare's farm they observed peanut fertilization plots. Last spring some growers got the idea that an application—1,000 lbs. per acre of ground rock would eliminate the stem rot disease. Mr. Hare tried 1,000 pounds on one acre. On the tour was counted the stem rot diseased plants on two rows in the phosphate area and in check area. There was 9 per cent more diseased plants in the phosphate plot. Mr. Hare fertilized his peanuts with 150 pounds of muriate of potash broadcast per acre just ahead of land preparation.

Information was given on the George Bunch demonstration where 150 pounds of additional muriate of potash has been applied per acre annually to other crops in the three year rotation. The potash level of the soil has raised from low to medium high over the four years. The peanut yields have gradually risen.

At A. D. Ward's at Gliden the group observed a variety demonstration. Here the stem rot disease resistance was very apparent of the NC-2 variety. A diseased plant count was made

on two rows of each variety. The Jumbo Runner had 83 diseased plants, C-42 had 64, NC-1 had 36 and NC-2 had 15. The yield and grade of each variety will be obtained at harvest time.

**Hornets Of Colored High School Defeat Perquimans 20 To 7**

**Edenton Team Has Perfect Record With Three Consecutive Victories**

Edenton's Hornets of the colored high school trounced the Perquimans High School of Winfall by a score of 20-7 in their third game for the season Friday afternoon on Hicks Field.

The Hornets scored their first touchdown in the first quarter of play. Calvin Nixon, quarterback, and Lenton Carter, left half, set up the scoring position and George Gilliam placed the ball on the 4-yard line. Ernest Jones scored the touchdown.

During the second quarter of play George Gilliam, Ernest Jones and Henry Bond alternated carrying the ball and Ernest Jones scored.

The third quarter was the final scoring quarter for the Hornets. Again Jones scored the touchdown. Phillips of Perquimans High scored the touchdown for the visiting team. Newsome carried the ball for the extra point.

Nixon attempted eight passes and completed four. George Gilliam was the most consistent ground gainer for

the Hornets. Outstanding on the defensive were Robert Chandler and Eugene Collins. Robert Chandler kicked two out of three for extra points.

For the season the Hornets' record stands three victories and no defeats.

The Hornets are coached by Brutus Wilson.
