COLORED SCHOOL NEWS

The Hornets of Edenton High School lost a gruesome battle to the Elizabeth City eleven last Friday, November 5, on Hicks Field.

Calvin Nixon electrified the whole crowd in the second quarter with an 82-yard touchdown sprint.

The inability to kick, maybe due to the wet field and ball kept the Hornets in the hole the entire first half.

The P. W. Moore Lions capitalized on the poor kicking of the Hornets and received two points, after which they made a touchdown which gave them the needed points to win the game.

The Hornets will take on the Beaufort eleven today (Thursday) on Hicks Field. This game is also a feature of the annual Homecoming.

MEASURED CORN YIELD

Assistant County Agent R. S. Marsh assisted B. E. Grant, Bertie County Agent, measure the corn yield which will be entered in the state corn growing contest. The corn was on the farm of Mr. Bazemore and it was a very good yield considering the average corn yield this year.

Counselor Of Lions Principals Speaker

(Continued from Page One)

emphasized the importance of this medium in advancing our economic, social and religious security. "Edu-

cation is the cornerstone of our national life and well being," said the speaker.

"The three D's as promulgated by Lionism stand for desire, decision and determination," said Beam. "We must have the desire to make the decisions for our activities in furthering the welfare of our communities and the full determination to push these worthy projects to a successful conclusion."

"The three F's which for the most part influence our daily living are fear, fellowship and faith," continued the speaker. "Much of the sickness of today is diagnosed by the physicians as being directly traceable to fear—fear of insecurity, both economically and militarily."

"In the words of that great leader, the late Franklin D. Roosevelt, 'we have nothing to fear, except fear itself,'" continued the speaker. "We must have faith in our fellow-man and practice the fine and noble precept of fellowship among ourselves as Lions as well as with our neighbors. I know of no better civic medium which provides these opportunities than our Lions Clubs throughout the world," concluded Beam, who was introduced by Deputy District Governor Paul Little.

A very enjoyable feature of the program was provided by J. C. Goodwin, an attorney of Elizabeth City, who sang three numbers. He was accompanied at the electric organ by Mrs. Madge Taylor, also of Elizabeth City. Music on the organ by Miss Agnes Chappell during the course of the dinner furnished another very enjoyable touch to the occasion.

The program was arranged by Zone Chairman N. J. George, who served as master of ceremonies.

President Earl G. Harrell expressed appreciation of the club to the ladies of the Eastern Star who served the delicious meal, as well as to all who contributed their services in making the meeting such a successful one.

Christmas Seal Sale Quota Set At \$2,000

(Continued from Page One)

gram throughout the district for health education case finding, rehabilitation and research. Eighty per cent of the money remains in the county, 94 per cent in the state where raised and one per cent for research. She also pointed out that the '54 Christmas Seal portrays happy, healthy children holding hands around the Christmas tree and that the seals can be used in many ways for displays. "To buy seals is to buy health," she said.

Mrs. Duke Crossley introduced Mrs. O. T. Wynne, originally of New Orleans, who gave a reading on the 50th anniversary of the Christmas Seal. Sketches of seals of outstanding years were shown and progress of the year in fighting tuberculosis.

Mrs. Wynne pointed out that 50 years ago tuberculosis was the leading cause of death, killing some 150,000 people a year and that today it ranks in sixth place. She also emphasized the fact that the four basic ways to attack the T.B. problem is education, rehabilitation, case-finding and research.

R. L. Garrett, introduced the guest speaker of the evening, Dr. Merle D. Bonner, superintendent and medical director of Guilford Sanatorium.

Dr. Bonner said that tuberculosis can be eradicated if found and isolated and contact chest X-rayed frequently. He said that up until 1945 people with tuberculosis had very little hope of complete recovery but since 1945 new drugs had opened a way of

combating the disease. He said tuberculosis had moved into the older groups and due to case-finding and education the young generation are not infected as has been in the past. He emphasized the fact that any case that is active should be in a sanatorium to prevent the spread of the germ.

Pictures of chest X-rays of patients having TB who had been treated were shown and explained to the group. He explained how the Tuberculosis Association had played an important part

in helping to control the disease. "If its treatment cases could be found early," he said, "they can be cured and out of the sanatorium earlier." After he completed his talk, there were many questions asked pertaining to tuberculosis and

All four counties were represented at the meeting. Mrs. Moore has announced that the 1954 Seal Sale will begin Monday, November 22.
