

Louis Harrell Leases Edenton Esso Plant Acts as Distributor of Esso Products in Edenton Area

The Esso Standard Oil Company has leased its local bulk plant to J. Louis Harrell, who will act as distributor of Esso Products in the Edenton area. Mr. Harrell has been associated with the Esso Standard Oil Co., for the past several years and has been purchasing products bulk at plant. In order to provide better service to the customers served on a direct basis, Esso has consolidated the Edenton and Elizabeth City tank truck fields. All customers formerly served by the Edenton plant on a direct basis will now be served by transport truck from Elizabeth City. It is felt that other local customers will benefit by this change also, in that Esso had only one man at the Edenton plant and when he was out making deliveries there was no one left at the plant to accept calls for products. Mr. Harrell will have a local man on his truck and he will make his office at the plant and will be available for anyone wanting to call in for products. Mr. Harrell is a lifelong resident of Chowan County. He will serve Esso Products to home heating oil customers, farm gasoline, motor oil, grease, diesel fuel, kerosene and fuel oil as well as some service station dealers.

ESPECIALLY FOR PET OWNERS...

Pet parakeets are susceptible to colds and pneumonia. The condition may develop when birds kept in a warm room are suddenly exposed to drafts. Antibiotics correctly administered are sometimes helpful to recovery.

Some authorities say dogs should not be bathed to rid them of fleas. They recommend flea powders for a more effective job.

Tests indicate that normal cats need about 4 per cent fat in their diet.

TEXT: "An ounce of performance is worth a pound of preaching." —Elbert Hubbard

A political leader was trying to convince a member of the opposition party that he should join his organization for a coming political campaign. "Why not join us," he concluded, "and fight for the cause?" "Listen," replied the practical man, "I'm not fighting for causes. I'm fighting for results."

Some folks delight in joining a "cause". Anything with a high-sounding name that may lend importance to

Dogs with eczema may be benefited by adding meat fryings, butter, cream, tallow, or other grease to the diet. But care should be taken not to overfeed grease, as digestive upsets may result.

The cat more than any other species may suffer from a niacin deficiency, according to investigators.

those who join, receives their signature. Many Americans have regretted their haste in joining "causes" which were not investigated. The best gauge of the merits of a "cause" is a genuine interest in the results hoped for and an all-out willingness to work for those results. If a prominent person volunteers for a "cause" it should be because he is sincerely interested in the results his personal efforts may attain. It is flattering to be asked for the use of your name, but unless you know the hoped for results and the methods that will be used to gain those results, you indulge in a hypocrisy which can lead to trouble.

Goldfish apparently prefer company. When kept in groups, individual fish eat more and learn their way around aquarium mazes more readily than when isolated.

Chlorophyll administered at proper levels to female dogs often reduces their attraction for males during the breeding season.

Habit of Complaint

"I suppose you were thankful for the heavy rain." "Oh, yes," replied Farmer Cornot, "though I don't see why them weather folks couldn't pervide to keep it in the fields instead of letting it stray around muddin' up the roads."
