

## Garbage Ordinance Called To Attention Citizens In Edenton

### Police Are Instructed To Carry Out Provi- sions of Law

With increasing complaints about garbage and trash strewn about Edenton's streets and trash cans remaining along the streets at all times and especially over Sundays, Chief of Police George I. Dail has been instructed to circulate handbills in order to inform those responsible that there is an ordinance in force requiring certain kinds of receptacles for trash and certain times to remove them from the street.

Chief Dail hopes the handbills will result in an improvement, but if not, more unpleasant steps will have to be taken.

The ordinance sets out that the occupant of every building premises or place where garbage does or may exist, shall provide himself with a garbage can made of substantial galvanized iron or other non-rusting metal in which he shall deposit all garbage existing at the place occupied by him. Such can shall be provided with handles or hales and with a tight-fitting cover made of the same material as the can. All garbage cans shall be water-tight. They shall be of a size that can be conveniently handled by the garbage collector (not to exceed in holding capacity more than twenty gallons). All garbage cans shall be kept reasonably clean by the use of lye or other effective cleaner.

The ordinance further provides that all garbage cans shall be placed at the front of the property for collection. Containers shall be placed for collection not later than 8:00 A. M., and all containers shall be removed by 6:00 P. M., each collection day. No containers shall be left or displayed at the front of the property on Sunday for any purpose whatsoever.

Edenton's firemen had a busy day on Sunday when they were called out for three fires between 10:30 A. M. and 1:30 P. M.

The first call at 10:30 o'clock was due to a grass fire near the home of Mrs. M. G. Brown, which resulted in no damage.

The second fire at 11 o'clock was more disastrous, consuming a house and all its contents on East Gale Street near the railroad. The home was occupied by Ernest Mason and his wife, colored. The fire was caused by grease on a stove catching fire while nobody was in the kitchen and spreading rapidly.

At 1:30 o'clock the firemen were called to the home of Ernest Alexander on the old Hertford road, where a frozen water pump caused a motor to catch fire. Little damage resulted.
