

Water Problems Of State Scheduled To Be Started In April

Grass Roots Study to Be Made In Each District

The scheduled state-wide inventory of North Carolina's water problems is slated to get under way the first week in April...

Riley said the grass roots study will be conducted on a Congressional District basis with the program being initiated at one-week intervals...

The reports from throughout the state will reveal which problems are state-wide, which are sectional and which are unique. By comparing the problems with existing water laws...

One week following the meeting of Fourth District county representatives in Raleigh, a similar meeting will be staged in the First District, probably in centrally located Washington County.

County Board of Commissioners are being asked to assist in the inventory by selecting the county representatives to attend the district meetings.

Still Lost

Sonny - Say, Dad, today the teacher asked our class to find the greatest common divisor and -

Daddy Karl - Great Heavens! Is that thing still lost? Why, Sonny, when I was a kid my teacher had us hunt for it, but I never found the blamed thing.

Fertilization Time For Ornamentals

By C. W. OVERMAN, Chowan County Agent

It's time to eat. For plants that is. Plants have started growing so let's give them a square meal to push them along. How much? It depends on your soil.

Use an 8-8-8 fertilizer for most plants. Follow with one or more light applications of nitrogen if needed. Manure is also excellent, but it may contain lots of weed seed.

the last application going on by July. Around shallow rooted plants (boxwood, azaleas) or mulched plants, leave the fertilizer on top of the ground.

How To Plant Small Seed

Fine soil that won't crust is a must in growing plants from small seed. A mixture of half woods mold (rubbed through a coarse screen) and topsoil is good.

Use an 8-8-8 fertilizer for most plants. Follow with one or more light applications of nitrogen if needed. Manure is also excellent, but it may contain lots of weed seed.

Pruning Roses A lot of the pruning can be done during the growing season by cutting long or short stems depending on the growth by the plant.

60 - SECOND SERMONS

By FRED DODGE

TEXT: "Hidden worth differs little from buried indolence." -Horace.

The tourists missed the country eating place they were seeking. Finally, they returned over the lonely road and spoke to a boy they saw near a shack hidden in the trees.

"You should have a sign out here, advertising your diners. We here, advertising your dinners. We 'Nope,' said the mountaineer 'I tried that, but so danged many

largely a matter of keeping them thinned out and the branches shortened when necessary. Light pruning can be done any time. Early spring just before growth starts is a good time to do the thinning out.

people got tew stoppin' yers, I had to take 'em down."

It has been said that the need to be appreciated is a basic human instinct. It could be. Without this yearning no man would make the effort to invent, think, work or perform. Most accomplishments of mankind must have been rooted deep in a desire to be appreciated.

commemorative celebration of the Holy Communion on Jamestown Island, with the Rt. Rev. Frederick Deane Goodwin, Bishop of Virginia, as celebrant.

Bishops Proclaim June Celebration

The House of Bishops of the Protestant Episcopal Church, designated Sunday, June 16, 1957, as Jamestown Sunday. The resolution requested that every Episcopal church hold a celebration of the Holy Communion on that date, commemorating the first recorded celebration of the Holy Communion on American soil.

On June 21, 1607, that celebration took place on Jamestown Island, Va., with the Rev. Robert Hunt as celebrant. Formerly vicar of Healthfield, Sussex, Mr. Hunt had been appointed by the Archbishop of Canterbury to be "Preacher" to the expedition.

On June 16, 1957, there will be a

New Grades Of Hybrid Seed Corn

"Most of us remember when farmers selected their own seed corn and 'nubbed' each ear prior to shelling the corn," states Marvin R. Godfrey, research assistant with the N. C. Crop Improvement Association.

He said nubbing the ears was actually a crude method of separating the round from the flat kernels. Using this method of separation, the flat kernels which were used for seed, varied greatly in width and often resulted in uneven

planting. With the advent of hybrid corn, Godfrey points out, it became necessary to provide the farmer with seed that would plant more uniformly with a minimum of waste.

He adds that the new regulations prescribe definite size requirements which each grade must meet in both the width and thickness of the kernels. A sample from each lot of certified seed corn is screened on hand screens in the Crop Improvement Association Office to determine whether or not it meets the grading standards before the blue tag is issued to the producer.

For example, a large flat grade of U. S. 282 produced in the mountains can be planted with the same plate as a large flat grade of N. C. 27 in the Coastal Plain.

Because of this new advancement in the grading of hybrid seed corn, more ease will be afforded farmers in planting their crop and

Work, Sleep, Play In Comfort

Without Naggng Backache Naggng backache, headache, or muscular aches and pains may come on with over-exercution, emotional upsets or day to day stress and strain. And folks who eat and drink unwisely sometimes suffer mild bladder irritation... with that restless, uncomfortable feeling.

So if naggng backache makes you feel draaggged-out, miserabile... with restless, sleepless nights... don't wait... try Doan's Pills... get the same happy relief millions have enjoyed for over 60 years. Get Doan's Pills today!

You Need A Church To Be A Christian

Did you ever stop to think that Christianity is not a "lone wolf" activity?

Too many of us have come to think of our Christian profession as something having to do entirely with morals. We very glibly recite "The Golden Rule" and seem to believe that if "we do unto others as we would have them do unto us," we are being good Christians.

But, being a Christian first involves believing in Christ as our personal Saviour and as the Saviour of the world. It involves much more than being a good person.

Christ taught, "Thou shalt love the Lord thy God with all thy heart, with all thy soul and with all thy mind..."

This command to love God includes worship, prayer, work for God's Kingdom. As our Book of Common Prayer puts it, a Christian's duty is "to follow Christ, to worship God every Sunday in His Church, and to work and pray and give for the spread of His Kingdom."

In the Episcopal Church we worship God corporately - "uit" - other people. It means being a part of "the Body of Christ" - an active participant in His church.

We invite you to join us in worshipping God and His Son, Our Lord, in the Episcopal Church near you, at your earliest convenience.
