Heart Fund Drive During February

Continued From Page 1, Section 1

"In accepting this appointment, I have the fullest confidence that Chowan County will surpass the amount it contributed last year," said Dr. Bond. "This conviction stems from the fact that, through the years, we have learned that only medical research can solve the heart disease problem and that a contribution to the Heart Fund to support such research is, therefore, not just a gift but an investment in our own health and health of those we love. The heart diseases hold a threat to every one of us. Age is no barrier. With the stakes so high, it is the responsibility of each of us to lend his support to the North Carolina Heart Association drive in February—at least as a contributor, and, if possible, as a volunteer."

"Now is the time to join the ranks of the 1958 Heart Sunday volunteer army. Heart Fund volunteers will spread throughout the town on Sunday, February 23, to knock at every door in a mass house-to-house collection. The drive will be conducted here from 2 P. M., to 4 P. M.

As many volunteers as possible will be needed to cover Chowan County, each volunteer being responsible for a small number of homes, mostly those of their immediate neighbors. Those who

volunteered last year did an excellent job and could do an even better job this year.

"Our volunteer army, as in previous years, will consist of men and women who feel that the battle against the heart and blood vessel diseases made possible by the proceeds from the annual Heart Sunday drive is worthy of two hours of personal effort in addition to their own contributions," Dr. Bond declared in issuing his first call for volunteers. Anyone interested in aiding this worthy campaign should call or contact Dr. Bond at 3736 or Mrs. W. B. Gardner at 2283 in Edenton.

Miss Maidred Morris, County Home Demonstration Agent; West Byrum, Jr., and Mrs. Onnie S. Charlton, have accepted the position of vice chairmen of the drive which will open on February 1, reach its peak on Heart Sunday, February 23, and close on February 28. James Bond will act as treasurer for the city and county, and Mrs. W. B. Gardner as publicity chairman.

Some 10,000,000 living Americans have heart or blood vessel afflictions, and one out of every two Americans dies as the result of one or another of these diseases, Dr. Bond points out. In 1956 the latest year for which complete statistics are available, the cardiovascular death toll exceeded 843,000—close to 54 per cent of all deaths from all causes that year. About 90 per cent of all

heart and blood vessel diseases are caused by hardening of the arteries and high blood pressure. The underlying causes of these disorders are still unknown. Funds are vitally needed for new research projects, and to train young scientists for research careers.

"To help accomplish this, we in Chowan County need the assistance of every Heart Sunday volunteer we can get," Dr. Bond urged. "Please be one of those who will visit every home on Sunday, February 23."

1958 Tree Farm Growth Foreseen By Industry Man

North Carolina, whose vast timberlands provide a major measure of wealth to Tar Heel good living, started 1958 with 173 certified tree farmers—landowners who are voluntarily growing timber as a crop under an industry-sponsored program.

During the past year, said Carr Gibson, Elizabethtown, chairman of the North Carolina Forest Industries Committee, North Carolina added 64,039 acres to the nationwide American Tree Farm System, giving the state a year-

end total of 1,110,929 acres. "The Tree Farm program means much to North Carolina," said Gibson. "In addition to wood required to operate forest industries which in turn mean jobs for workers and income for farmers, the program embraces other multiple uses of the land—such as wildlife habitat, water and soil

conservation and recreation. "Because trees grow and replace themselves, the Tree Farm movement is a fountain of prosperity that flows into every area of our economy. I believe 1958 will be the biggest year yet in the Tree Farm movement in North Carolina."
