

Ocean Highway Plans For '58-'59 Outlined

Continued From Page 1, Section 1

"Cap" left that meeting happy and pleased at the demonstrated spirit of understanding of mutual interests and the spirit of mutual cooperation expressed. He felt that the future was very bright for the Ocean Hiway Association as a traffic producing and development organization for all the coast, from New York to Florida and for the ferry and the soon-to-be realized Chesapeake Bay tunnel project.

"We shall miss 'Cap' but we will not falter in carrying on to full realization of the future he envisioned for this association to which he had contributed so much.

"In the season ahead we must make sure that our membership will be increased, that a million or more of our 1959 improved Ocean Hiway map folders will be printed, and will be distributed nationally, along with ferry schedules and motorists' guides. Our newspaper and magazine advertising program must be expanded and every possible opportunity taken to obtain even increased free publicity to promote the Ocean Hiway as the favored North-South route between New York and Florida. In our operation this season we will receive from and will give to the Chesapeake Bay Ferry District the fullest cooperation. Our interest is theirs and theirs is ours, for the Ocean Hiway is the North-South route that serves the bay ferries and that will serve the tunnel.

"This season we will have the largest and finest membership in our history, and on our board of directors are members of whose active work and interest we are certain. All members will be called on to do their part in this cooperative non-profit association which functions so well in their behalf. Our headquarters staff, headed by Bill Schwartz is capable, experienced and wonderfully alert to everything for the good of the Ocean Hiway and all its members. Alan Schenck and Joe Grace are very important and valuable parts of the team that brings ever increasing national recognition to and acceptance of the Ocean Hiway.

"This season finds our route name-marked 'Ocean Hiway' in Maryland, Virginia, North Carolina, South Carolina and Georgia; the only route so designated by acts of the legislatures of several states. The highway surfaces are better than ever before and the ferry service is excellent.

"As your president, I will call within the next few weeks a meeting of the Executive Committee to firm up plans for the season ahead. At this meeting, acting for the membership under authority given them between annual meetings, the Executive Committee will designate a successor to Captain Garrison as chairman of the board. Following the meeting a report to the membership will be sent by our capable secretary-treasurer Bill Schwartz.

"As members you should know that already I have visited more than 85 members in four states, and I intend to call on each of you personally during my term of office as your president. I want to get your ideas and suggestions to answer your questions and to try to share with each of you my appreciation for the value of the Ocean Hiway and my enthusiasm for its future.

"I hope that when the 1958-59 Ocean Hiway season ends, its program and results will reflect the faith Captain Garrison had in it, and that I have, too. I'm counting on you to help make this true. It's your association, remember I'll need and count on your cooperation and active work, including getting new members."
