

Soybean Growers Will Have New Variety For Next Year

North Carolina soybean growers will have a new variety to choose from next year.

Hill, a new soybean variety for North Carolina and the South, has been released by NSDA and cooperating state experiment stations.

Foundation seed of the new variety is now being increased. The seed supply for next year should be good, says Dr. Charles A. Brim, a USDA scientist at N. C. State College who worked on the variety.

According to George Spain, agronomy specialist at State College, the Hill has these characteristics: Early maturity, high comparative yields, shatter resistance, resistance to major leaf disease and purple stain, and excellent seed quality.

Hill is similar in appearance and related to the popular Lee, Spain continued, but matures 15 to 18 days earlier. It has white instead of purple flowers, and the hilum (eye) of the seed is light brown in color. Seed size of Hill is slightly smaller than Lee.

"Hill will give soybean growers in Northeast and Tidewater counties a choice of an earlier maturing variety," Spain says. "It may also spread the harvest season for many other growers."

Variety demonstrations of Hill are now being grown in several Eastern and Northeastern North Carolina counties. There are also plantings at the Tidewater Research Station, Plymouth.

County agricultural agents have additional information on the new variety.

constitutional and legal systems and the country. Indeed, they are following the traditions of the Democratic Party as manifested in the last platform and its history. The Democratic Party does not desire that legislators elected by its membership dance like puppets on a string pulled by the national chairman or any other group intolerant of independent thinking. It expects legislators bearing its label to carry their own sovereignty under their own hats just as those who elected them expect them to do. With this Congressional leadership the Democratic Party was victorious in 1958; it would be unwise to turn over the Party lock, stock and barrel to a group, headed by Chairman Butler, who apparently lacks the vision to comprehend the nature of the Party.

I have been asked whether or not the action in the Subcommittee on which I serve was a victory for the South against the harsh civil rights bills. It is not a victory at the moment because the battle is not yet over; I was encouraged that we were able to defeat the more radical proposals and to that extent it was a victory.

Party Chairman
The criticism by Chairman Paul Butler of the Democratic Congressional leadership is totally unwarranted. Lyndon Johnson and Mike Mansfield, in the Senate, and Sam Rayburn and John W. McCormack, in the House, are affording the Democratic Party highly intelligent leadership and by so doing are rendering a constructive service to both the Democratic Party

Blue Ridge Parkway Most Scenic Highway

Travel experts of the National Association of Travel Organizations have voted the Blue Ridge Parkway the most scenic of all America's major highways.

In Western North Carolina, the Parkway reaches the highest elevations on its route between the Shenandoah National Park in Virginia and the Great Smoky Mountains National Park, and meets the Great Smokies Park near Cherokee. Completed sections of the Parkway in North Carolina total 180 miles.

The Parkway's choice as "most scenic" resulted from the National Association of Travel Organization's poll of the 125 of

its 500 members most interested in highway travel. They included officials of automobile clubs, oil company tour services, motel associations and bus companies, and directors of state and regional travel promotional offices.

The Blue Ridge Parkway has long been the most popular of all U. S. National Park Service facilities. Its visitation by 2,097,562 tourists during the first six months of 1959 is a gain of 14 percent over the same period last year.

The death sentence is a severe penalty to pay for breaking a traffic law. But figures from the State Department of Motor Vehicles show that over three-fourths of all drivers involved in last year's fatal accidents were violating some traffic law.

Safety was worth writing about 650 years before the birth of Christ. These words in Aesop's Fables have a familiar ring: "Danger awaits on haste." "Look before you leap." "Fear makes caution." "Only fools use unfamiliar tools."

SENATOR SAM ERVIN SAYS

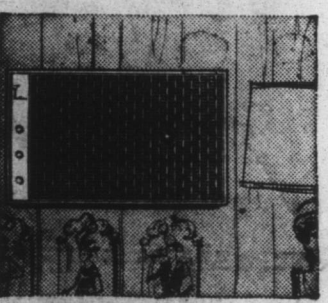

Washington — The so-called "skeleton" civil rights bill reported by the Senate Constitutional Rights Subcommittee last week, although greatly toned down from others that we defeated, is something that must be taken seriously as a threat. The danger lies in the planned attempts to tack on harsh provisions later as some are demanding.

No Filibuster
The press asked me the other day whether or not I was planning a filibuster against civil rights. I am not, but there will be extended discussion of the dangers of any proposed bills just as was done in 1957 when we were able to preserve our
