### SCHOOL SAFETY

GEORGE B. HOLMES, PTA Safety Committee Chairman

Today's safety talk is addressed to high school pupils who may be planning to drive the family automobile to classes this season beginning September second.

The message is simply, "Drive carefully!" For some this is a regular rule and, in truth, I have been a passenger in automobiles driven by high school pupils where the driving habits displayed were much better than mine.

On the other hand, as you know, many drivers need to leave off the last-minute dash for the parking lot or the quick get-away after classes. Others need to be reminded that yellow lights mean to prepare to stop rather than a push on the accelerator. Then, too, there is the overloaded hotrod that carries a certain amount of unawareness which may be enough to lead to trouble.

This year and every year let's make the Police Department's job an easy one. The law-enforcing officers are your iriends even when they stop you to prevent you from either making a statistics of yourself or a victim of someone else.

Best of wishes this year for a happy and successful aca-
