The Roundup

By WILBORNE HARRELL

Some of my readers say that I repeat myself, or harp on the same subjects too often. But if I am repetitious, my friends, it is because some things need repeating—over and over again. Frankly, I have but few strings to my bow. I shall continue to send my arrows against communism and all its ramifications, against social injustice and complacency. With these three arrows, maybe eventually I will succeed in pricking the tough hide of our self-satisfied smugness, and arouse the Americanism that sleeps deep within the heart of each of us. We are still the same Americans that won our independence at Valley Forge and Yorktown, the same pioneers who conquered the wilderness, the same Americans that have championed freedom throughout the world. But today we stand beleaguered, the enemy is even now without our gates; and what, Oh Lord, is it

going to take to arouse our dormant Americanism, to awaken us from our indifference and lethargy? An atom bomb?

Do you remember (or maybe you don't want to remember that far back) when ice was delivered in horse drawn ice-wagons from door to door? Each ice customer had an ice card with figures indicating the number of pounds of ice wanted—this he hung where it could be read and seen by the ice-man. But the best feature of the ice-wagon was the accumulated shavings from sawing the huge blocks of ice. And us kids would trail an ice-wagon for blocks begging a handful of these shavings, which we called "snowballs". Most ice-men would cheerfully pass out the "snowballs", but every now and then a surly purveyor of ice didn't want no pestering from kids. And from him we didn't

His by right of creation. He made us: "Without Him was not anything made that was made." Truly Christ is the answer to the riddle of the universe—to all the riddles of the universe. Only the fact that we are made by God can explain the wonderful organism which is the human body. He made us—therefore He owns us.

Our Lord Jesus Christ wants not only to be Master of our minds and possessions, but of tenet. In Him we live and our physical bodies as well and move and have our being. He What powerful potentialities exist in the human body—either for good or for evil! A head that can go to the Bible and probe the very Mind of God—or doubt, and conjure up mischief and sin. Lips which can again Christians, by right of re-use to praise God, to com-dempton. "Ye are not your fort others, to bless and teach—own, for ye are bought with a curse, and slander, and lie price. Therefore, glorify God in Eyes that can seek places where your mortal body." Bought with Christian help is needed—or a price! Redeemed from sins to sow discord and care, and death and hell by the pre-Hands that can bind up wounds, cious blood of Jesus. Feet that can carry us guide our steps; His death-si-lence to the House of God—or to the dens of sin. The human body—for speech . . .

If Christ is the Master of our bodies we shall learn to exercise self-denial, which is the highest form of human challenge. "If any man come after me, let him deny himself . . ." The modern cult of unlimited self-expression is nothing but paganism come back to life. Christianity expresses itself in self-denial:

We are His, if we are born-again Christians, by right of re-use to praise God, to com-dempton. "Ye are not your fort others, to bless and teach—own, for ye are bought with a curse, and slander, and lie price. Therefore, glorify God in Eyes that can seek places where your mortal body." series has not been terrifically exciting; the new Talent Scouts Show, with Sam Levenson is fairly enjoyable; both NBC and CBS are running Comedy Spots, which are actually pilot films made some years ago, that the networks could never sell. For the most part, it's easy to see why.

LITTLE TOBACCO CHANGE

Based on reports from growers as of August 1, the North Carolina Crop Reporting Service has forecast a flue-cured tobacco crop of 783,975,000 pounds, or just under one-half of one percent above the July 1 estimate of 785,100,000 pounds. Drought damage in the Middle and Old Belts reduced the expected yield of Type II by 25 pounds. This decrease was more than offset by prospects for an increase of 25 pounds in the yield for the Eastern Belt and 50 pounds per acre in the Border Belt.

Surviving are his wife, Mrs. Carrie P. Cease; two sons, Carl B. Cease, Jr., of Weatherfield, Conn., and Heister C. Cease of Raleigh; a daughter, Mrs. Donald C. McClelland of Pittsburgh, Pa.; two sisters, Mrs. Paul Hugus of Latrobe, Pa., and Mrs. Joe Covil of Pleasanton, Pa.

He was a member of the White Memorial Presbyterian Church in Raleigh and a veteran of World War I.
