on this year's squad. The quintet includes Shelton, King, Warren, Brown and Carr, either of whom is capable of carrying the ball.

The Bulldogs have an impressive record thus far, for in their two games they have piled up a total of 75 points without being scored upon. In their first game they defeated Beaulaville 14-0 and last week they swamped Pamlico 61-0.

Barring accidents, the Aces will be in top shape for the game and fans are hopeful that they will be able to make it three straight victories. The Aces defeated the Bulldogs last season 26-0. Thus far the Aces have defeated Camden 38-0 and last week had little difficulty in defeating Roanoke Rapids by a score of 33-6.

The band and cheerleaders will accompany the Aces to Wallace and a large number of Edenton followers also plan to make the trip.

Councilmen Consider New Sewage Disposal

men plan to visit areas where the system has been in use for a number of years. If Edenton is adaptable, so far as soil and other requirements are concerned, it will mean a considerable saving of money over the present proposed sewage disposal plant.

Another problem facing the Councilmen was the report that the Edenton Motel's swimming pool was constructed on town property. It was pointed out that the town has a 25-foot right-of-way back of the houses on the West side of Broad Street known as Hughes Street and that the patio of the pool is built entirely across this piece of town property. It was also stated that the motel owners had leased a portion of the old railroad property, beyond the town's street and that no building permit had been secured to construct the pool.

W. E. Mills, building inspector, reported, however, that an application had been made for a building permit after the construction had been in progress but that he could not issue one due to the pool being on town property. Members of the Finance Committee were instructed to contact Shelton Moore regarding his contention as to his deed calling for use of the land and to bring back recommendations at the next meeting.

The matter of trading two cars for the Police Department

came in for some discussion, it being the purpose to trade cars when the 1961 models are available. Trading of one car is provided for in the budget, but if the necessary funds can be found both cars will be traded for new ones.
