

Negro Home Demonstration News

By MRS. ONNIE B. CHARLTON, County Negro Home Economics Agent

Mrs. G. K. Greenlee, Home Economics Specialist, will conduct a training school in "Pattern Alterations" Wednesday, October 26, at the Brown-Carver Library, 9:00 A. M. All clothing project leaders are to be present. Others interested in this training school are invited to attend. Bring with you a dress pattern in your size.

Our Home Demonstration Achievement Day program which was scheduled for Tuesday night, will be held at a later date. Clubs will assume the same responsibilities already assigned so continue your preparations. The date will be announced soon.

Each member is asked to make a special effort to attend your October Home Demonstration Club meeting. Bring non-members with you.

Keep Your Feet Comfortable

Be Kind To Your Feet—Have you ever had a pair of shoes that hurt your feet? Don't worry, you have not been by yourself. Squeezing or pinching your feet in shoes that are too short, narrow, tight or maybe too large will cause your nerves to be on edge, you may have pains in your back and legs, you may be short-tempered and feel miserable. Ill fitted shoes may cause you to have corns, callouses, ingrowing toe nails, bunions or arch trouble.

Women usually buy four or five pair of shoes each year while men get only one or two pairs each year. Style is king in the shoe business, especially when buying women's shoes. Shoes are expensive. The chances are, they may be higher next year. Rain or shine, hot or cold, ice or snow, scorching pavements or frozen streets, your feet are constantly on the go, taking you here, there and everywhere. Therefore, it is up to you to be sure that your feet are well taken care of and kept in good condition and fitted with shoes that will give com-

Select Shoes That Will Give Comfort And Support To Your Feet

Some of us have jobs that keep us on our feet to either stand, sit or walk for long hours such as: canning, freezing, general house work, farm work, factory, hospital duty or for doing home sewing. Regardless to whether you stand, sit or walk for long hours, shoes should be thick enough to protect the bottom of your feet from accidents. Shoe heels should be broad and low enough to give a good foundation for the body. Manufacturers make shoes suitable for different purposes such as for: work, dress, play, sport, toe dancing, regular dancing, casuals in a variety of materials and colors shoes with zippers, shoe laces, straps, buckles, etc., and you must remember that one type of shoe cannot serve for all purposes. Keep in mind the purpose you have for the shoe and select, type, color and style according to the occasions on which you expect to wear them.

Advice When Buying Shoes

1. New shoes should fit comfortably. Be sure to test the fit by standing and walking before you make your final decisions.
2. Do not ask for the same size of shoe that you have been wearing. Take time and ask the sales person to measure both feet, because they may not be identical in size or shape.
3. Try both shoes of a pair; also, try several styles.
4. Shoes should be long enough to extend one-half to three-fourths of an inch beyond the big toe and should be wide enough to allow freedom for your toes.
5. Shoe heels should be broad enough to give a good foundation for the body.
6. Do not buy shoes just because the shoe looks pretty or because it has a beautiful strap, bow, buckle or heel.

SPECIAL FEATURES AT KADESH CHURCH SUNDAY

Plagued Day And Night With Bladder Discomfort?

Unwise eating or drinking may be a source of mild, but annoying bladder irritations—making you feel restless, tense and uncomfortable. And if restless nights, with nagging backache, headache or muscular aches and pains due to over-exertion, strain or emotional upset, are adding to your misery—don't wait—try Doan's Pills.
