

AROUND THE FARMS IN CHOWAN COUNTY

By MELBA DuBOIS, Extension Secretary

Corn Variety Results: Results on the two corn variety test demonstrations conducted in 1960 have been completed. Hurricane Donna tangled the corn so severely that we did not try to make evaluations on ear height, standability, stalk rot, weevil resistance or grain quality. Our printed results will show evaluations on these factors taken from our 1959 work.

In our computation all yields were adjusted to 15.5 percent moisture. Average yields in bushels per acre of the two demonstrations are as follows: Funks G-96, 132; G-702, 127; DeKalb 803, 122; Pioneer 309A, 123; Pioneer 345A, 122; G-83, 120; G-144, 1119; G-76, 119; N. C. 288, 119; Woods V-51A, 118; PAG 434, 117; G-72, 116; Pioneer 309B, 114; Speight D-4, 112; G-730, 110; D-8, 108; N. C. 46, 108; PAG 487, 108; Dixie 18, 103; Dixie 82, 108; DeKalb 1051, 107; G-711AA, 106; Riemers 302, 106; Watson 516, 104; Pioneer 342A, 103; DeKalb 633, 100; Coker 67, 100; V-26Y, 99; DeKalb 837, 99; N. C. 27, 99; PAG 488, 99; N. C. 42, 98; Riemers 204, 97; McNair 444, 96; G-710AA, 96; Coker 66, 92; D-11, 86; Woods S-210, 85. The average yield of all varieties was 108 bushels per acre.

The demonstration with Gilliam Wood of Edenton was in 38 inch rows with plants averaging 14 inches in the row. The fertilizer was 500 pounds of 3-9-18 side-dressed with 100 pounds of nitrogen per acre. The demonstration with Preston Monds of Center Hill was in 41 inch rows with plants averaging 12 inches in the row. The fertilizer was 400 pounds of 6-6-12 side-dressed with 80 pounds of nitrogen per acre. Planting dates were April 19 and 20.

Good Sweet Potato Yields: Results on an All Practice Sweet Potato production demonstration was conducted with J. D. Peele of Rocky Hook were checked on October 14. Production practices involved fumigating plant bed with Methyl Bromide, proper plantbed fertilization, seed selection, seed treatment, proper seed spacing and soil coverage, water-

ing bed as needed and nitrogen application as recommended. In the field, the soil was fumigated for nematode control. Fertilization consisted of 450 pounds of 6-12-6 fertilizer applied in the row plus one side-dressing of 350 pounds of 8-0-24 as plants started growing well and another side-dressing of 350 pounds of 8-0-24 at hilling time.

One acre was set Gold Rush variety and another acre to his bunch-vine Porto Rico variety. Rows were 40 inches wide. The average plant distance in the row was 10 inches. The Porto Rico variety yielded 294 bushels of U. S. No. 1, 13 bushels of No. 2 and 8 bushels of jumbos per acre. The Gold Rush variety yielded 283 bushels of U. S. No. 1, 24 bushels of No. 2 and 6 bushels of jumbos per acre.

An adjoining acre of the Porto Rico was side-dressed with 400 pounds of 14-0-14. This acre yielded 268 bushels of U. S. No. 1, 12 bushels of No. 2 and 4 bushels of jumbos per acre.

Community Progress Contest: Monday of next week, October 31, ends the 1960 Community Progress Contest in Chowan County. You families in the participating communities please give your leaders full cooperation in getting your community progress records.

You leaders remember that your community records must be completed on or before November 15. Judging will take place on November 17.

Hornets Defeat C. S. Brown Tigers 48 To 6

Coach Walter Hunter's Edenton Hornets defeated the C. S. Brown Tigers of Winton by a score of 48-6 on Hicks Field Friday night.

The Hornets outplayed their opponents in every department of the game with thrilling runs accounting for some of the scoring. One of these was a pass interception by Sherman Horton, who raced 65 yards to score. Johnny Bond also tore loose for a 65-yard touchdown jaunt.

Maj. Bailey Guest At Rotary Meeting

Continued from Page 1, Section 1

ganizations, high school and college audiences, and on radio and television.

Prior to her present assignment, Major Bailey was engaged in intelligence duties with Headquarters, Military District of Washington, where she served for four years.

A native of Kinston, North Carolina, she graduated from Grainger High School there in 1936 and entered Flora Macdonald College, Red Springs, North Carolina. She received a bachelor of arts degree in 1940 from the Woman's College of the University of North Carolina, following this with graduate work in languages at the University of North Carolina.

Before entering the military service, she taught French and English at the Taylorsville, North Carolina, high school.

Her language training provided valuable background for an early military assignment as a member of the French Training Program. This operation brought members of the French Army of Liberation from North Africa for specialized training by the United States Army. She was engaged in this assignment from 1943 until 1945 at Craig Field, an Army Air Corps installation at Selma, Alabama.

Other assignments during her early years of service were at Fort Sam Houston, Texas, where she was a counselor for military personnel being discharged from the service. Vocational guidance was an important part of her work in this assignment.

From 1947 until 1949 she was assigned to the Military Liaison Office in Miami, Florida. The following four years were spent overseas in Germany with assignments at Munich and Stuttgart.

Major Bailey, married since March, 1943, has successfully combined a military career and marriage.

Anyone interested in speaking to Major Bailey about enlisting may see her at the Parish House at 2 o'clock.

Zackie Harrell 'Talent For Service' Scholar

North Carolina State College has released the 1960 list of "Talent for Service" scholars who entered the freshman class last September.

"Talent for Service" scholars are selected from finalists in annual scholarship competition for outstanding North Carolina high school seniors who have achieved a superior academic record, have earned distinction for good citizenship, and are interested in a field of study offered at State College.

Freshman scholarship recipients in the School of Agriculture include Zackie Webster Harrell of Edenton, who received a 4-H scholarship.

Edenton Aces Tackle Ahoskie Friday Night

Continued from Page 1, Section 1

with an enviable record in that they are undefeated this season and have rolled a total of 299 points while holding their opponents to 24. Their victories include Camden, Roanoke Rapids, Wallace-Rose Hill, Williamston, Scotland Neck, Elizabeth City, Weldon and Hertford.

Ahoskie has lost only one game, that being to Greenville, 19-0. They defeated Roanoke Rapids 7-6, Hertford 27-0, Plymouth 21-0, Central 28-0, Scotland Neck 14-12 and Norlina 33-0.

By comparison, the Aces defeated Roanoke Rapids 33-6, Scotland Neck 33-0 and Hertford 51-6. So, on paper, the Indians take on the role of underdog.

Coaches Bill Billings and Billy Hardison, as well as the Aces themselves, anticipate a hard-fought game, so that they have been practicing hard in order to down the Indians and thus maintain a clean record.

The Edenton Band and cheerleaders will also be on hand to add color and entertainment to a game which should prove to be very thrilling.

Bradley Williford Lions Club Speaker

Featuring the Lions Club meeting Monday night was an address by Brad Williford, who was introduced by his grandfather, T. B. Williford. Young Williford gave a very interesting account of his trip to the national Boy Scout Jamboree held last summer at Colorado Springs.

Oscar Duncan informed the club that the White Cane Sale went over the top with over \$500 collected. He said he wanted to thank everybody who helped and contributed in the drive.

It was also announced that the club will sponsor its annual bread sale Monday night, November 7. The meeting for that night will be called off and members are urged to meet at George Chevrolet Company at 7 o'clock to help in the bread sale.

Almost 50 Enroll In Classes For Adults

In the neighborhood of 50 people met at the John A. Holmes High School Tuesday night when three night classes for adults were started.

These classes will be taught for adults which includes typing, bookkeeping and art. There were 25 enrolled in the typing class, 11 for bookkeeping and six in the art class.

The classes will begin Tuesday night, November 1 and will be in session from 8 to 10 o'clock.

Tuesday in Edenton
Mr. and Mrs. Johnnie Cope-land of Pantego spent Tuesday in Edenton visiting Mrs. Norman Lane.

New John Deere Tractors Displayed

Local farmers have an opportunity to see John Deere's New Generation of Power—a new line of John Deere tractors which represents one of the most thorough tractor design and development programs ever achieved.

The new line is now on display at Hobbs Implement Company.

The new tractors are designed to provide farmers with the most precise control of power farming they have ever had, while bringing comfort and convenience to a new peak.

Company product engineers, in designing the New Generation of Power, were instructed to "throw the book away" and develop an altogether new line to meet the power demands of today and tomorrow.

The new line, with a background of field-testing for five crop years and thousands of hours of laboratory testing, reflects the decision to increase

power, provide more precise control of that power, and set new high standards of comfort and convenience.

The new tractors are offered in four power sizes—the "1010," "2010," "3010," and "4010." Factory-observed maximum horsepower at the PTO is 35 horsepower for the "1010," 45 for the "2010," 55 for the "3010," and 80 for the "4010." There will be a choice of gasoline or Diesel engine in each power size and LP-Gas engines available also for the three larger sizes.

In addition to the line of wheel tractors, a new track-type tractor is offered as the "1010" Crawler, with 35 horsepower Diesel or gasoline engine.

Mrs. S. X. Stephenson Dies Very Suddenly In Norfolk Hospital

Mrs. S. X. Stephenson, 88, died suddenly in a Norfolk hospital Wednesday of last week. She was a native of Suffolk but lived in Edenton over 50 years. She was the widow of Captain

S. X. Stephenson, for many years conductor for the Norfolk Southern Railroad. She was also a member of the Edenton Methodist Church, where for many years she was very active in church affairs.

Surviving are two sons, Joe Stephenson of Norfolk and Stuart Stephenson of Montgomery, Ala.; four daughters, Mrs. West Byrum, Sr., of Edenton, Mrs. Katie Mae Williams, Mrs. Margaret Gordon and Mrs. Mildred Widdiford, all of Norfolk, and a sister, Mrs. Kate Mullen of Richmond, Va.

Funeral services were held at a funeral home in Norfolk Saturday and the body was brought to Edenton where a graveside

service was held in Beaver Hill Cemetery.

The Rev. Ralph Fowlkes, pastor of the Methodist Church, officiated.

Miss Brenda Mooney Chosen As Instructor

Friends will be interested to learn that Miss Brenda Mooney, former resident of Edenton, has been selected as an instructor for the physical fitness class at Shenandoah Conservatory at Winchester, Va.

Miss Mooney is a student at the Conservatory.

SAVE \$48.50 on 20-in. Saw and Extra Chain Combination
EXTRA-SPEED GEAR-DRIVE SAWS FOR BIG TIMBER

6-BIG Features: Counterbalanced crankshaft of drop-forged steel spins on two sets of bearings to transmit full engine power, smoothly and with minimum of friction. Aluminum piston travels in aluminum cylinder with honed, cast-iron lining . . . a proven combination that dissipates heat from minimum wear and longer life. Diaphragm carburetor has positive force-feed fuel pump that insures a constant flow of fuel at any angle and in any position—even upside down! Extra-large screen completely encloses manual chain oiler pump. Only clean filtered oil ever reaches pump for efficient lubrication of guide bar and chain. Automatic clutch starts chain only when you squeeze throttle trigger . . . stops chain when you release throttle trigger or when chain is caught or pinched. Enclosed revolving airscreen prevents twigs, chips and leaves from clogging cooling system. Has latest design recoil starter and magnesium air shroud.

MODEL 5G-21. Cuts 8-in. softwood log in 3 seconds. Slim silhouette design for easier handling . . . weighs only 21 pounds less guide bar and chain. Short-stroke, high compression 2-cycle engine features big 4.71 cubic inch displacement and efficient air-vane governor. Chain driven through strong, quiet helical-cut gears at low ratio of 2.29 to 1. Chipper-type chain zips through soft, hard, even frozen wood . . . is easy to sharpen. Chrome-plated guide bars have hardened nose for maximum wear resistance. Twin spike bars bite into bark and "anchor" saw for easy, one-hand pivot cutting. Fuel tank holds 3.20 pints, oil tank .94 pints. Includes Maintenance Kit.
