Edenton Aces Win Regional Class 2-A Championship By Walloping Garner 40 To 0

Easily Outclass South Central Conference Champions In Every Department of Game

Edenton's Aces ran roughshod over the Garner Blue Rams in Greenville Friday night to win the regional Class 2-A championship, 40 to 0. The game was played in a downpour of rain during the first half which made the field wet and sloppy and had some effect in slowing down both teams, each of which had the reputation of being fast. After the first few plays it was next to impossible to distinguish the numbers on players of either team.

The Aces, however, outclassed the Rams in every department of the game and before the contest was very old the outcome appeared very little in doubt. The Rams never seriously threatened to score, only once getting any closer than the Edenton 27-yard line and on only one other occasion penetrated Edenton territory and that was on the 49-yard line. So stubborn was the Edenton defense that it yielded only 54 yards by rushing during the night and allowed the Rams only one first down. Despite the wet field, the game was one of the cleanest.

Heartfelt Thanksgiving

We should not speak in terms of words
When giving thanks to God above
For His rich blessings through the years
Bestowed because of His true love;
But from the depth of heart and soul
We ought to give Him thanks and praise,
And live to honor His great name,
However long or short our days.

As years of time go passing by
God makes provision for our needs
From trees and vines and wondrous crops
That grow from fields of tiny seeds;
For truly it is from the soil
That all mankind are clothed and fed,
And through the strength and toil of men
And by the sweat that must be shed.

Then as we think of life on earth,
With all it takes to keep us here,
Along with health across the years
That is to us both sweet and dear,
And crowned with blessings for the soul
That only heaven's King can give,
Our thanks should flow like living streams
For all His bounties while we live.

O heart and mind and soul, look up
From whence our many blessings flow,
And waft your thanks on wings of praise
Like pilgrims of the long ago,
That God be pleased to bless us on
As we have need from day to day,
Whatever be our place in life
And hear us as we humbly pray!

Industry Appreciation Week To Be Observed Nov. 28 To Dec. 3

The North Carolina Association of County Commissioners, at their annual convention in Morehead City in June, voted to have an Industry Appreciation Week during the fall. The date has now been set for the week of November 28-December 3, according to W. E. Bond, chairman of the Board, Chowan County Commissioners.

The purpose is to provide an opportunity to express appreciation to existing industry for its contribution to economic progress. In the efforts to attract new industry to a county, sometimes the people of the county are left with the impression that new industry is more important than existing industry. "This, of course, is not an accurate impression," said Bond, "but nevertheless, the 'impression exists.' Industry Appreciation Week can correct this impression by giving attention to the industries of a county that are currently making a contribution to our county's economy.

"As Governor Luther Hodges said, in his address at the annual luncheon during our 1960 Convention, Industry Appreciation Week can serve a multiple purpose," says Mr. Bond. "It can show industries, old and new, that we are aware of the part they are playing in our new industry is more important."

Nearly 500 Attend Meeting Of Soil Conservation Supervisors

A delicious barbecue chicken dinner was served by ladies of the Center Hill-Cross Roads Rural Fire District.

Included among those present were prominent state and district soil conservation officials. A surprise visitor was Congressman Herbert Bonner, who was called upon for a few remarks. Mr. Bonner highly praised the work and interest in soil and water conservation in this area and emphasized the importance of the work. The principal speaker for the occasion was Congressman L. H. Fountain of the Second District, who pinch-hitted for Governor-elect Terry Sanford, who was forced to cancel the speaking engagement by his doctor. Mr. Fountain stated that the small watershed program is the
