

The Roundup

By WILBORNE HARRELL

There's a frightening overtone in the mere fact that safety belts are considered necessary for cars. Now the terrific hazards of the open road are recognized and cast in the same category as that of ships that carry lifeboats and lifebelts, and planes that carry parachutes. But, for me, just the sight of that safety-belt would take all the pleasure out of any automobile ride I may have the occasion to take. Gone would be the enjoyable spin through the countryside, or the relaxed ride just for fun—like the leisurely walks or buggy rides we used to enjoy. Now we are grimly reminded that death rides in the rumble seat, and each ride may be our last one. But we Americans are so nonchalantly and unconcernedly killing one another by the hundreds on the highways, I suppose something, no matter how desperately or futile, had to be done about it. Nevertheless, I don't like the idea of the ne-

cessity for strapping me down when I take an auto ride. Phil Osopher says, The tragedy and danger of the false propaganda that the communists spread among illiterate and under-privileged countries about the United States and our democratic form of government, is that it is too often believed. And that also goes for we Americans—many of us, without stopping to think, also believe these preposterous fairy tales. There are many gullible, ignorant and credulous people here in the United States, who follow the Party Line without realizing it. The Reds are experts at sugar-coating their ideologies.

RAMBLING — Have you ever caught lightning bugs and placed them in a bottle? Thomas A. Edison, when he held his first electric lamp in his hand, was small potatoes as an inventor

compared to us when we held in our hands boyhood's lightning bug lamp. But with childhood's natural cruelty, we never stopped to think that to thus imprison lightning bugs was not altogether a humane act. But does childhood know the meaning of compassion, forbearance, mercy? There is as great a difference in the glow and warmth of the human soul and personality, between the child and the adult, as existed between Edison's electric lamp and boyhood's feeble lightning bug lamp. So it is among nations. A people must grow up and gain mature stature, before they can truly understand what the torch of liberty and freedom and democracy really mean. That is the basic reason for the conflict and unrest among the world's young countries today—it is a case of too much democracy too soon.

No compromise with communism!

FACING THE ISSUE—A real flesh-and-blood totem pole brightens the scene in Dallas, Tex., as three cub scouts pose with scout-made totems.

Merry Hill News

DITHANE M-22 SPRAY OR DUST Controls peanut leaf spot

Now you can use DITHANE M-22 as a spray or dust to control peanut leaf spot. This superior fungicide, so widely used for disease control in many fruits and vegetables, is highly effective against peanut leaf spot. DITHANE M-22 dust or sprays are non-irritating to the operator, and it is safe on foliage when used as recommended. Conventional low-volume sprayers can be used for applying DITHANE M-22 sprays. DITHANE M-22 has been used successfully by growers in all the important peanut growing areas. "Excellent leaf spot control... healthier plants... much easier to use... higher yields of better quality peanuts..." these are typical comments from growers. DITHANE M-22 is compatible with all your insecticides. DITHANE M-22 protects foliage from leaf spot even during rainy weather because of its tenacity on the leaves. Peanut leaves are difficult to wet. To obtain maximum coverage and performance from DITHANE M-22, add TRITON B-1956 to all your sprays. See your dealer for additional information on DITHANE M-22 for peanut leaf spot control. ROHM & HAAS PHILADELPHIA, PA. SPRAY AND SAVE WITH DITHANE M-22

CHAMPION BOURBON by Schenley 8 YEAR OLD straight Bourbon \$2.75 pint \$4.20 1/2 quart

were in Jackson and Aulander Saturday on business. Mr. and Mrs. E. J. Pruden, Jr., and Mrs. E. J. Pruden, Sr., were in Durham Sunday to see E. J. Pruden, Sr., who still remains very sic' in Veterans Hospital. Mr. and Mrs. Eldridge Baker visited Mrs. Baker's father, Zeb Cobb, who is a patient in the sanatorium at Wilson, Sunday. Davis, Ken and Kerry Spivey, Mrs. Minnie Bazemore and son, Bert of Edenton visited Mr. and Mrs. George Davis and family in Elizabeth City Sunday afternoon. Mrs. Kate Johnson of Colerain is spending two weeks with Mrs. W. H. Taylor.

FD Clubs Urge More Consumption Of Milk

Chowan Home Demonstration Club members urge drinking more milk and using more milk products such as cottage cheese in one's diet. It is estimated that to duplicate the food elements in a quart of milk by purchasing other products, it would cost about 43 cents. Dr. Charles H. Mayo, late distinguished surgeon at the famous Mayo Clinic said, "Considering its cost per pound, milk offers more food for the money than any other food material available." Studies of consumer food expenditures show that 18 to 20 percent of the family food budget is spent for milk and milk products. Here's what the American family gets for this money: 23-26 percent of their calories,

Don't Lag—Buy OLAG

dentists say "wonderful" "best I've ever used" "best tooth paste on the market"

40-45 percent of their protein, 75-84 percent of their calcium, 59-76 percent of their riboflavin, 35-39 percent of their Vitamin A, 18-19 percent of their thiamin, and 5-6 percent of their iron and niacin. In terms of today's factory wages, the "real" price of a quart of milk is the lowest in history, according to the U. S. Bureau of Labor Statistics. Back in 1890 it took 26 minutes of factory work to pay for a quart of milk selling at the average price of 63 cents. Today it takes less than 7 minutes to earn the price of a quart of home-delivered milk figured at 25.2 cents per quart. "June is Dairy Month and 'The Livin' Is Easy With Dairy Food'. Use them in your menu planning, say Chowan Home Demonstration Club members.

BIRTH ANNOUNCEMENT

Captain and Mrs. W. O. Speight of Westover Air Force Base,

Massachusetts, announce the birth of their second child, a daughter, Lisa Carol, born June 4th.

BUCKET SEATS ALONE DO NOT A MONZA MAKE

■ Gee! ■ Little did we know, when we introduced the Corvair Monza last year, that we were starting a Big Thing. We just thought it would be pleasant if you could buy a car that treats you, the driver, like you want to be treated. ■ The bucket seats, of course, are the most obvious evidence of our desire to please you. But they're not the most important thing. No sir. What's really vital is the way a Monza handles—something nobody in the U.S. has yet copied. Or can copy. Because Corvair is the only rear-engined car made in this country, and you know what that means: steering light as thistledown. (You even park this one more easily, it steers so briskly.) Beautifully balanced braking—the car stays level even under panic braking, which we hope you'll never have to do. Traction and more traction, so you don't become a stick-in-the-mud. The kind of cornering that's sheer joy to experience. ■ You get more: a fully independent suspension that blots out road shocks before they can ruffle you. Clean, crisp styling. Thoroughgoing economy, from purchase price to operating cost. ■ You're not going to be satisfied with bucket seats alone, are you?
