come in and clean the house two days each week and pays her \$3.00 each day. This easily comes to \$50.00 a calendar quarter. Mrs. Brown should deduct three per cent from Miss Smith's wages, add a like amount, and every three months send it to the nearest District Director of Internal Revenue with a report of the cash wages paid.

Mr. Grooms explained that the Social Security Act states that the employer is responsible for reporting these wages for social security tax purposes if they total \$50.00 or more in a calendar quarter.

A calendar quarter is any three-month period beginning January 1, April 1, July 1, or October 1 of each year. A penalty is required by the law for failure to make a timely report when one is required, Mr. Grooms said.
