

2,523 Lose License To Operate Autos

The Motor Vehicles Department reports 2,523 traffic convictions in July resulting in the suspension or revocation of legal driving privileges.

Heading the monthly list was drunk driving with 527 first time offenders and 68 two and three time losers. The offense, which normally leads the agency's summary, requires a mandatory revocation of license.

Speeding was in second place with 417 convictions. Most of the speed law violations were in the "over 75 mph" class with two offenses of speeding over 55 and speeding within city limits accounting for the rest.

Driving without a license came in third with 264 convictions which resulted in additional penalties for the offenders.

Various other violations such as two offenses of reckless driving, larceny of auto, improper use of driver's license, racing, unsatisfied judgment and transporting intoxicants helped swell the July total.

Department clerks noted that 90 motorists forfeited their license under the state's point suspension program while court ordered suspensions caught 89 others.

Failure to deposit security (253) and cancellation of insurance (347) headed the non-moving violations. Revoked or suspended licenses for the year so far totaled 19,999.

The agency's driver license division also reported mailing out 4,941 warning letters to borderline traffic violators.

The total was divided into 581 advisories for reckless driving, 1,819 for speeding and 2,541 for points.

In each instance the letters call attention to the driver's record advising him to improve it, as a subsequent violation could mean loss of license.

N. C. Tobacco Crop Estimate Unchanged

Based on reports from growers as of August 1, the North Carolina Crop Reporting Service is holding to its July 1 estimate of production for all tobacco types produced in the State. The production of flue-cured tobacco is, thus, forecast at 819,600,000 pounds, or 20,270,000 pounds (2.4 percent) smaller than last year's crop of 839,870,000 pounds and shows of the 1950-1959 ten-year average by 3.4 percent.

The love of justice is simply in the majority of men the fear of suffering injustice.
