

SOIL CONSERVATION NEWS

By JAMES H. GRIFFIN, Soil Conservationist

Chowan County supervisors will hold their regular meeting Thursday night, September 21, at the local work unit office in the basement of the Post Office in Edenton.

Several items of business will be discussed, including applications from farmers to become district cooperators and requests for assistance on soil and water conservation practices.

The two watersheds, Pollock Swamp and Burnt Mill Creek, will keep SCS personnel busy this winter. Farmers are requested to make appointments for their individual work. This will allow SCS personnel to service them and keep up the watershed work.

Watershed Meeting

Landowners in the Bear Swamp section of Chowan and Perquimans Counties held their second meeting this year on the small watershed program Thursday night, September 14, at the Center Hill Community Building. About 30 landowners attended and made plans for contacting other landowners. Chairman Archie Lane appointed B. P. Monds and Cernon Asbell to contact Chowan County landowners. A committee was appointed to work with Perquimans County landowners.

Area Conservationist W. A. McLeod explained the watershed program and its benefits. He pointed out that the requirements to get a high priority with the State Soil Conservation Committee was local interest, need and size of the project. Mr. McLeod stated that it cost almost as much to serve a small project as a large project. The area in the present Bear Swamp drainage district is only about 7,000 acres which is considered a small project. Other groups, such as Bethel Creek, could come under the same project as Bear Swamp.

Work Unit Conservationist J. H. Griffin showed photographs of watershed projects and pointed out some of the problems in the counties. Work Unit Conservationist F. A. McGoogan, Area Engineer L. D. Hunnings and County Agent Pete Thompson made remarks to the landowners about the small watershed program.

Conservation Work

A large number of Chowan County farmers have conservation practices planned for this fall and winter. Murray Goodwin is planning to dig an open ditch this fall. The field survey and design has been made on his ditch.

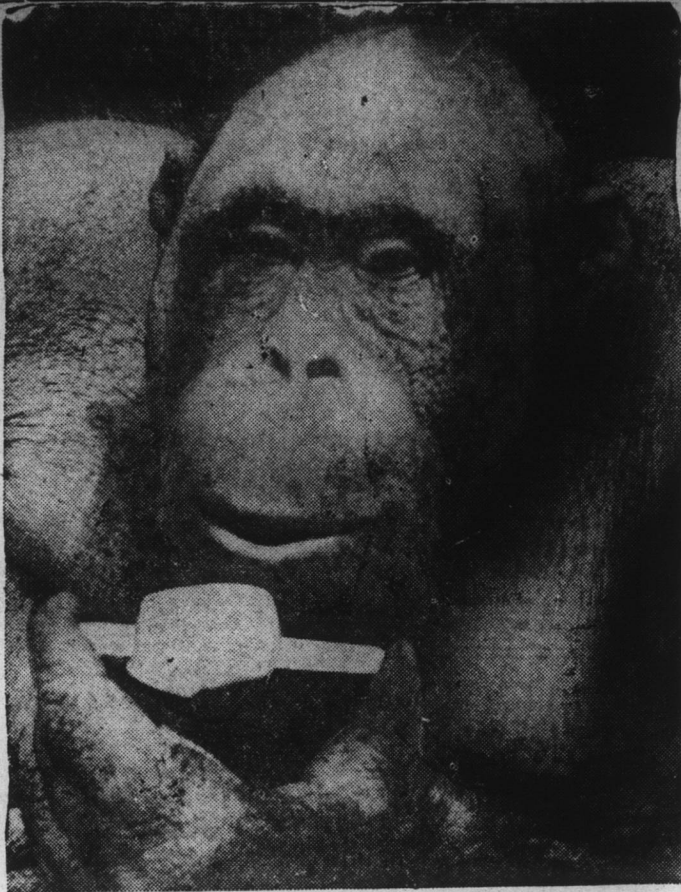

W. A. Twine, Cisco, has revised his conservation farm plan. He planned a tile drainage system to be installed over a four-year period. This fall he plans to install 1,000 feet of six-inch drain tile. Technical assistance for revising his conservation farm plan was furnished by the local soil conservation district through the Soil Conservation Service.

Mr. Twine planned to install diversions and grass waterways to control erosion.

District cooperators J. B. Hollowell, Cross Roads, plans to establish grass waterways to stop erosion on his cropland. These practices were planned in his conservation farm plan.

Robert Francis, Edenton, plans to dig an open ditch in his woodland for fire protection and drainage. Mr. Francis has improved his woodland by poisoning undesirable trees and setting loblolly pines.

Field survey work has been done on the Layton-Perry group ditch in the Rocky Hock community. The local soil conservation district is furnishing this group technical assistance in planning their group drainage project this year. Soil Conservation Service is furnishing the assistance. Sherlon Layton says that they plan to construct the 1.3 miles of ditch in early 1962. ACP cost-share assistance will be requested in January 1962.

ALMOST HUMAN—Alexander the Orangoutang puckers his lips as he finishes off his orange ice on a stick. He was trying to refresh at Regent's Park Zoo in London, England.

himself. "We're just seeing human beings being human."

Usually, good teachers and administrators try to make the best placement for each child. Katzenmeyer thinks a good assignment method is that used by many schools in which teachers and principals sit down together before classes end in the spring and work out the teacher assignment for each youngster for the upcoming year.

In discussing a placement, for instance, one schoolmarm may say, "Rocky raises more mischief than the entire class. I'm not sure how to handle him."

The other teacher replies, "I think I can handle Rocky's type. You're good with Sam's kind. I'll take Rocky and put him in Jerry's and Jim's group and you take Sam. That'll be good for both boys, don't you think?"

Similar discussion based on experience and information about each pupil goes into every placement decision, says Katzenmeyer.

In schools that practice grouping, an additional factor affects placement.

Katzenmeyer would put each student into a class having a reading group at his level. In this case, assignment to a teacher other than the one of his reading group might constitute poor placement, at least as far as studies go.

What about schools that use the "pick names out of a hat" method in determining assignments?

Katzenmeyer disapproves of the procedure. He thinks a parent is justified in requesting

a specific teacher if he has good reason to think that the instructor can do more for his child than the one assigned.

And schools practicing this "fate" placement method may honor such requests if too many don't come in for a particular teacher.

If you feel strongly that Junior has been poorly placed, Katzenmeyer recommends a talk with the principal.

By and large, however, you need not worry. Teachers and principals sincerely concern themselves with placing each child under the best teacher for him.

Remember, these professionals work with the student every school day during the whole school year. They have the training and information to do the best placement job.

Of Course

"I tell you, old friends are best."

"That's right! Just try to think of a new friend that has stood by you as long as the old ones."

AN ORDINANCE AUTHORIZING THE ISSUANCE OF \$543,000 OF BONDS OF THE TOWN OF EDENTON FOR THE ENLARGEMENT AND EXTENSION OF THE SANITARY SEWER SYSTEM OF THE TOWN OF EDENTON.

BE IT ORDAINED by the Board of Councilmen of the Town of Edenton, as follows:

Section 1. The Board of Councilmen of the Town of Edenton has ascertained and hereby determines that it is necessary that said Town enlarge and extend the sanitary sewer system maintained and operated by said Town, by constructing a new sewage disposal plant and interceptor sewers, pumping stations, sewer mains and other facilities needed to connect such plant with such sanitary sewer system and by acquiring the lands or rights in land and equipment needed therefor, and that it will be necessary to expend for said purpose not less than \$543,000.

Section 2. Said Board of Councilmen has also ascertained and hereby determines that the purpose hereinbefore described is a necessary expense of said Town within the meaning of Section 7 of Article VII of the Constitution of North Carolina, and is a purpose for which said Town may raise or appropriate money, and is not a current expense of

said Town.
Section 3. In order to raise the money required for such purpose, bonds of the Town of Edenton are hereby authorized and shall be issued pursuant to The Municipal Finance Act, 1921, of North Carolina. The maximum aggregate amount of bonds authorized by this ordinance shall be Five Hundred Forty-three Thousand Dollars (\$543,000).

Section 4. A tax sufficient to pay the principal of and interest on said bonds shall be annually levied and collected.

Section 5. A statement of the debt of said Town has been filed with the Town Clerk of said Town, as required by said Act, and is open to public inspection.

Section 6. This ordinance shall take effect when approved by the voters of said Town at an election to be called and held as provided in said Act.

The foregoing bond ordinance was passed on the 12th day of September, 1961, and was first published on the 14th day of September, 1961.

Any action or proceeding questioning the validity of said ordinance must be commenced within thirty days after its first publication.

W. B. GARDNER,
Town Clerk of the
Town of Edenton, N. C.

SCHOOL AND YOUR CHILD

By John Corey, Appalachian State Teachers College

Which Teacher Is Best For Junior?

School bells are ringing this month and many parents wonder if it's smart to ask the principal to assign Junior to a particular teacher.

Since many schools have two or more teachers in each grade or subject, the concerned mother and father want the better instructor for their child.

Which is the best? Can a parent determine this? If so, wouldn't every guardian want his child in the top teacher's class?

Good advice comes from the director of pupil personnel services for the Jackson, Mich., public schools, William G. Katzenmeyer.

Administrator Katzenmeyer agrees that it's normal and proper for parents to want the

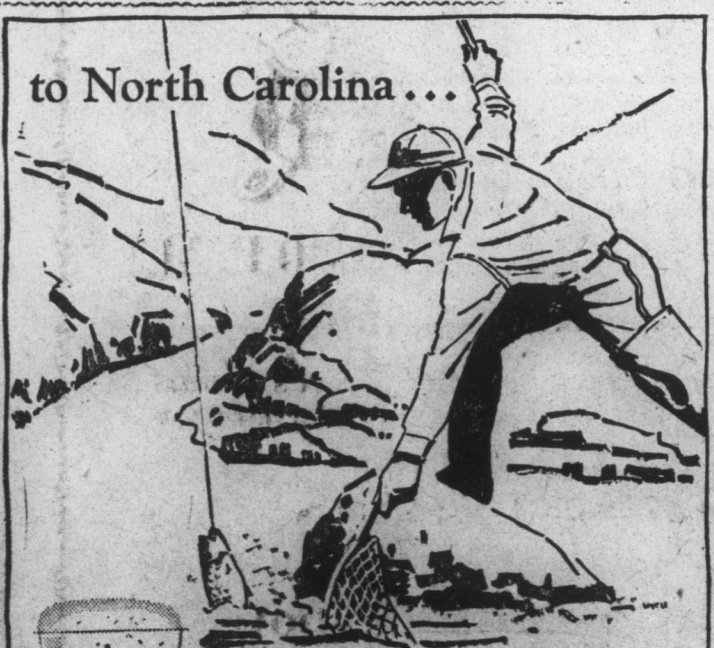

best possible instructor. But he points out the difficulty in a parent determining this.

"For example," says Katzenmeyer, "one father claims that his boy had Miss Jones and didn't learn a thing. Does that mean that if your Junior had Miss Jones he won't learn either?"

"Probably not," continues Katzenmeyer. "Anyone who works with kids knows that they are as alike as bonnets in the Easter parade."

"Most children respond well to most teachers. But sometimes we find a child who responds exceptionally well to a particular teacher. Another youth may not respond at all to the same instructor. Is the teacher a lemon?"

"Seldom so," says Katzenmeyer, father of three children

to North Carolina...

a glass of beer means many things

Like ham and eggs, apple pie and cheese, a glass of beer and relaxing comfort go hand in hand. And to all but a minority of North Carolinians this simple pleasure is accepted as such.

But a glass of beer means much more than personal enjoyment. It means more than 8 million dollars in state taxes annually—with those counties and municipalities permitting its "legal sale" deriving the greatest benefits.

... and meet the men who stand behind it **Today**

You've seen how people look at the new cars... slam a door, lift the hood, perhaps kick a tire. That's about all most folks know to do.

They have to trust the car dealer to advise them on the best car and all the rest of it... trade-in, terms, financing.

That's why we say it takes a good dealer to make a really good deal.

Come in and let us prove it pays to deal with your Ford Dealer... we want you as a lifelong customer. We pledge to do everything we can to win and keep your trust and confidence... as any good neighbor should.
