Deadline For Return- ing Important Informa- tion Is Monday, January 15

Labor survey questionnaires are now being distributed by the Edenton Chamber of Commerce within a 30-mile radius of this county seat, according to Joe H. Conger, Jr., president of the Chamber. Fire Damages Baker Home

Edenton's firemen were called out about 10:45 o'clock Monday night when a fire developed at the home of Mr. and Mrs. Herbert Baker at the corner of Granville and Albemarle Streets.

Cuban Refugee Club Speaker

The Edenton Woman's Club will meet Wednesday afternoon, January 3, at 1 o'clock at the Edenton Restaurant.

A feature of the meeting will be an address by a Cuban refugee, so that Mrs. Herbert Holwell, Jr., urges all members to be present.

Chowan County has fallen far short of its quota on the last few visits of the bloodmobile, so that an appeal is made to Chowan citizens to donate a pint of blood. The quota for the county is 100 pints.

Mr. Dail says that at the last visit of the bloodmobile 75 pints of blood were donated and that since September 10 the Chowan Hospital was obliged to use 134 pints, which fact emphasizes the importance of meeting the quota.

Peanut Production Below Last Year

Peanut production in North Carolina is estimated at 312,400,000 pounds compared with 318,560,000 pounds produced last year. The expected yield of 1,771 pounds per acre is 35 pounds below last year and is 85 pounds below the record of 1860 pounds produced in 1958.

The 1961 crop got off to a slow start, but conditions improved as the season progressed. Considerable variation in yield per acre existed in some counties. Reports from some producers attributed their low yields to damage done by the corn root worm. Open weather during the fall months were very favorable for harvesting and threshing operations.
