

## KNOW YOUR SOCIAL SECURITY

John T. Grooms, representative of the Social Security Administration, is in Edenton every Thursday at the North Carolina Employment Security Commission office in the Citizens Bank Building.

Are you among the many workers past retirement age who have not yet applied for social security benefits because you are still employed? If so, you may be losing benefits to which you are entitled.

A recent change in the law now makes it possible for many more older people to work and still be paid some social security benefits. You don't have to retire completely to get benefits.

Under the law as it stands now, you can earn up to \$1200 a year and still collect benefits for every month. If you earn over \$1200 in a year, you will lose some benefits. One dollar of social security benefits is withheld for each \$2 earned be-

tween \$1200 and \$1700. For every \$1 earned over \$1700, \$1 of benefits will be withheld.

For example, if you earned \$2100 in a year, \$650 in benefits would be held back (one-half of the \$500 between \$1200 and \$1700, plus the \$400 in excess of \$1700). If your monthly benefit rate amounted to \$120, your yearly benefit amount of \$1440 would be reduced by \$650 permitting you to get \$790 in benefits for the year.

If you have reached retirement age but are still working, check with your local social security office. A delay in filing could result in loss of benefits.

## VEGETABLES FROM KEYSTONE SEEDS ARE EASIER TO RAISE

•The Lifeguard® Package—suspends normal seed deterioration. Results in the field are more vigorous emergence, better stands, earlier crops.

•Seed Treatment—all Keystone seeds are Orthocide treated for protection against crop-destroying fungi. Where necessary, Keystone Seeds are also treated with Dieldrin for protection against insects.

•Quality Control—maintains Keystone seed varieties at high levels of purity, productiveness and excellence of table quality.

One big dazzler... one little gem...

## now join the world's greatest V-8 collection

405-HP THUNDERBIRD V-8—Thirty years of Ford experience culminate in this startling V-8. Available in every Galaxie, it puts 405 horses under the throttle, a dazzling level of acceleration that cannot be imagined but must be felt. A super-performance option, it comes only with the four-speed gear box. But, unlike some "special" engines that require delicate tuning and modification, it puts out its potential right off the showroom floor. Even more impressive, Ford skill has made it a docile tiger; it idles smoothly, it is durable, its super capacity does not come at the expense of harshness and noise. Among expert drivers, it is praised as a true high-performance V-8 in America... the pace-setter for 9 other V-8's tailored to every driving need.

NEW FAIRLANE CHALLENGER "260" V-8—When the 221-cubic-inch Fairlane V-8 appeared last fall, automotive writers hailed it as a great basic advance, a compact jewel of design. Now, the "260" V-8 proves their prediction. With 164 hp, 19 more than the standard version, Fairlane gains a new brilliance of performance—but it still runs on "regular," still outsaves any standard-size Six. It has the durability of time-tested cast iron, slimmed and lightened by Ford's precision-casting technique. Created by the one maker who has built 30,000,000 V-8's since 1932, it brings the sparkle and smoothness of V-8 power well within the thrifty budget's reach, puts truly sophisticated engineering at the service of truly economical motoring.

**Ford** WORLD'S FOREMOST BUILDER OF HIGH PERFORMANCE V-8 ENGINES

Whatever you're looking for in a V-8, look to the long Ford line

FAIRLANE 500... Right size... Right price... Right between compacts and big cars
