

# Terry Jones To Be Ordained As Baptist Minister Friday Night

Friday evening, April 6, at 7:30 o'clock Macedonia Baptist Church will set apart, to the work of the Gospel ministry through ordination, Terry Hayward Jones.

Mr. Jones, who was licensed to preach by the Macedonia Baptist Church in 1961, has been called as pastor of the Chappell's Hill Church in Perquimans County. According to the custom of Baptists, a man who has been called into the ministry and has accepted the pastorate of a church is then ordained by the church he is a member of.

Macedonia, having been notified of Mr. Jones' call to become pastor of the Chappell's Hill Church, called together a council to examine him in regard to his fitness for the ministry. This council, after examination and prayerful consideration, unanimously recommended that the church proceed with the ordination part in the service.

## Billings Resigns As Football Coach

Continued from Page 1, Section 1

Coach Billings practically ruled the ranks in his statewide classification for eight years. During those years his teams hung up the enviable record of 76 victories, three ties and 14 defeats. His Aces won four state championships, won or shared the Albemarle Conference Championship seven consecutive years, as well as shared in district, regional and eastern championships. The Aces, under Billings, lost only two conference games during the eight years. Both were to Ahoskie in 1964 and 1961.

Billings will leave Edenton proud of the accomplishments of his teams, but among his fondest recollections will be his 1960 edition of the Aces. He refers to them as his "whiz kids," saying this team seemed to be able to do more things right than any team I had.

Coach Billings, a graduate of Catawba College, came to Edenton from New Hanover County to succeed Ben Perry. His first team won the first state championship for Edenton in 20 years, when the 1934 wonder team, with scarcely more than 11 men, won the state Class B championship without being scored upon. This team was coached by Henry House.

To confess a fault freely is the next thing to being innocent the result of much enthusiasm of it.

The combined sale of Series E and Series H bonds for the month totaled \$4,661,414.75. This is an increase of 8.7% over February, 1961.

Cumulative E & H Bond sales for the first two months of this year were \$9,768,968.14—up 7.3% over the comparable period of last year. This represents 18.9% of N. C.'s 1962 dollar goal of 51 million 000 thousand dollars.

W. H. Andrews, Jr., state volunteer chairman, said, "We are very proud of this excellent record being maintained by North Carolinians and wish to thank all those who have contributed to our increased sales over the past seven months. We are hopeful that we will be able to sustain this growth during the remainder of 1962."

replant or repel?

The answer is as simple as ORTHO Bird Repellent mixed with the seed.

Crows, blackbirds, jacksnaws, grackles, pheasants and larks don't come back a second time for seed treated with ORTHO Bird Repellent. They spit it out and fly away. And this protection continues even after corn and grain has started up out of the soil.

Actually, the full name of this product is ORTHO Bird Repellent and Seed Protectant. It also contains Aldrin insecticide to control soil insects such as wireworms, seed corn maggots and corn rootworm. And fungicide (captan) for extra protection against diseases like seedling blight, damp-off and seed decay. In fact, it's the only bird repellent that combines all three and one of the few that

won't cause seed to bridge in the hopper. This year, don't plant for the birds. Plant with ORTHO Bird Repellent and Seed Protectant. Ask for it at the time you buy your seed. And just say ORTHO Bird Repellent. Almost nobody uses its full name.
