

Various Matters Face Councilmen

Continued from Page 1, Section 1
committee regarding a new Municipal Building, which is planned to be of colonial type. It was also reported that the curb and gutter project along the Court House Green is nearing completion.

A report was also presented regarding the new tennis courts next to the armory. It was pointed out that when the courts are put in use efforts will be made to prevent bicycles, roller skates and hard-soled shoes on the courts due to the damage which might result.

It was also reported that improvements to the Broad Street waterfront had been completed. Top soil has been spread over the new area and grass seed planted. A chain has been placed around the area to prevent damage to the grass by walking or driving over the area.

Jesse Harrell appeared at the meeting to explain the government's offer to match funds in the \$50,000,000 accelerated public works program.

During the meeting an amendment to the present picketing ordinance was adopted. The amendment follows:

Ordinance To Protect The Public Interest And Safety:

Whereas, picketing disturbances on the public streets of Edenton have resulted in injury to the person of the Edenton Chief of Police and danger of bodily harm and monetary loss to the general public exists, but at the same time recognizing the rights of any person or group of persons to peacefully picket for lawful purposes, it shall now, therefore, be unlawful for any person or group of persons whatsoever to picket any residence or place of business within the municipal limits of the incorporated Town of Edenton, unless 24 hours notice of the proposed intent to picket has been given the Town Council of Edenton in writing through the Town Clerk's office.

A permit to organize a picket line must be obtained from the Town Clerk. Said permit is to be obtained 24 hours in advance of the beginning date of the proposed picketing. Fee for such permit is hereby set at the rate of \$10.00 per day for each day the picketing exists from the beginning date to the termination date inclusive, payable in advance to the Collector of the Town of Edenton.

Violation of this ordinance will be punishable by imprisonment not to exceed 30 days or fine not more than \$200.00, in the discretion of the Court. Each day picketing continues without the required permit shall constitute a separate offense by each person engaged therein.

The effective date of this ordinance is October 11, 1962.

A request was made to rezone a portion of Second Street, and it was decided to hold a public hearing on the matter Tuesday night, November 3, at 8 o'clock at the Municipal Building.

Local High School Homecoming Oct. 19

Continued from Page 1, Section 1
keen between the opposing teams, as both have good records. The starting line-up for the Hornets will be as follows:

Right end, Sam Bonner; right tackle, George Mizell; right guard, David Felton; center, Marshall Jordan; left guard, William Copeland; left tackle, Thomas Johnson; left end, Allen Lawrence; quarterback, Joseph Blount; fullback, Grady Sessoms; right halfback, Harrison Bunch, and left halfback, James Capehart.

Coach Robert Shields is looking forward to extending a warm welcome to Coach Winslow and the Perquimans County Panthers.

Carolyn Jackson, a ninth grade student, will be crowned homecoming queen at half time by the Hornet captain, David Felton. She was chosen by the student body from 11 candidates who represent grades 9-12.

Chowan Is Host For Land Judging Contest

Chowan County will be host to the annual Federation Land Judging contest this year. Vocational agriculture students from Chowan, Gates, Camden, Pasquotank, Perquimans and Currituck counties will participate in the contest today (Thursday), beginning at 1:00 P. M. The event is sponsored each fall by the Albemarle Soil Conservation District. H. Fahey Byrum, Chowan County district supervisor, is chairman of the land judging contest committee. The judging will take place on L. N. Hollowell's farm just south of Chowan High School.

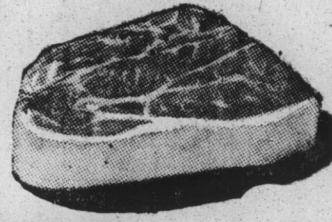

The district supervisors sponsor the contest annually for the younger generation trying to emphasize the importance of recognizing the differences in land and each different kind of land needs.

The purpose of land judging is to learn first to recognize and evaluate the physical characteristics of the soil which affect crop growth and land use, and second to decide what soil and water management will be required to preserve the soil and maintain it in profitable production under its most intensive use capability.

Meekness is not weakness,
—Sir Wm. G. Benham.
