

OUR SOIL ★ OUR STRENGTH

Our Soil — Our Strength
The fourth, fifth and sixth grades in the Edenton Elementary and Chowan School are participating in the conservation poster contest sponsored by the Albemarle Soil Conservation District again this year. Joe Webb, Jr., Chairman of the district's poster contest committee in the county said that each class will study conservation during the month of February and then each child will prepare a poster on some conservation idea. The posters will be entered in the county contest and the winners will be presented prizes. In addition, the winning posters from each county in the five county district in the overall contest to be held in Elizabeth City in March, 1963. The overall contest is sponsored by the Elizabeth City Chamber of Commerce. In the past the students from Chowan have taken most of the honors in the contest.

As soon as the weather breaks he will be ready to go ahead and install his tile. Others that plan to install tile or construct ditches should contact us so we can schedule our work to get everybody's staked as soon as possible in order that they may be completed before time to plant crops.

Elmer Graham, assistant to the State Conservationist in charge of watershed work of the Soil Conservation Service, spent Monday afternoon in the county assisting us in setting up a tentative plan of action for the Bear Swamp Watershed. This plan of action consists of things the local people in Bear Swamp need to do to qualify for assistance in cost-sharing under the watershed program to make the necessary improvements in watershed protection (drainage plans other features). This would be another project similar to the already completed Burnt Mill Creek and Pollock Swamp Watershed, scheduled to begin construction this spring. The people in Bear Swamp have shown a considerable amount of interest in organizing their watershed into a project to qualify for assistance.

J. D. Ward up in the Sign Pine Community doesn't want to be caught short this spring in getting his tile installed like a lot of people did last spring. He has already gotten his tile staked and contacted a contractor about installing it for him.
