

### WITH THE FARM WOMEN

By MAIDRED MORRIS

#### Construction of Fabrics Studied

"I respect fabrics more since I have seen it made," stated Mrs. W. W. Denby of the Sligo Club in Currituck County. Mrs. Elizabeth Sanderlin, home economics agent, says her club members went on a tour of the Roanoke Rapids Mills to observe the construction of fabrics.

Many of the women purchased material for draperies, slip covers and upholstery while on the tour.

**Johnston Fashion Revue**  
"Fashion Fair" will be the theme for the annual fashion show in Johnston County, according to Mrs. Gordon Brown, Selma, Route 2, clothing leader. Mrs. Sarah Sasser, home economics agent, says the annual show on April 17 will be a colorful event as the Home Demonstration Club members model spring styles made from new fabrics now available on the market.

#### Simple Short Cuts In Sewing

Homemakers in Anson County are getting the sewing fever during the early spring days. Miss Rebecca Leonard, assistant home economics agent, says they are learning simple short cuts in sewing such as using zippers instead of buttons and button holes and putting in hems without hemming tape.

They are also learning to sew on wash and wear, laminated,

#### Leaders Recognized

The 4-H adult leaders in Haywood County recently attended a banquet where they were recognized for their service to the youth program.

Gwilli Brendell, assistant home economics agent, says the leaders were presented with a recognition certificate, a leader sign, and a year's subscription to "National 4-H News".

#### Heating Systems

"County residents planning to remodel their homes, build, or improve their present heating systems recently attended meetings on various types of heating systems," reports Miss Eugenia Ware, home economics agent in Rutherford County.

"Questions asked more often related to planning, installation and operating costs, convenience, comfort, requirements for installing certain types of heat, moisture control and insulating," she added.

#### Planning Ahead

Mr. and Mrs. Elwood Clodfelter of Davidson County agree that it does pay to plan ahead. They have just completed a two-year plan for remodeling and landscaping their farm home.

Mrs. Martha Thompson, home economics agent, says one of the main attractions is the back porch which was converted to a family room.

process will work and the choice is up to the individual doctor.

For some unknown reason, warts sometimes can be "charmed" away by suggestion. Mark Twain readers still recall the stumpwater and dead cat remedies of Tom Sawyer. If the patient firmly believes the remedy will cure warts, sometimes it will. Sometimes the physician will destroy the largest wart and then find that the smaller ones go away without further treatment.

If a wart is so located that it is constantly irritated and causes discomfort, such as a facial wart that gets in the way of shaving, or is unsightly, it is advisable to have it removed.

Most of the non-prescription wart remedies contain acid. These could cause harmful burns if the patient did not follow directions carefully.

If you have a wart that is located in an irritating spot or is causing an unsightly appearance, consult your doctor and follow his advice on whether it should be removed and what removal procedure to follow.

#### Employment Office Closed On April 15

William A. Hollar, manager of the Edenton Employment Security Commission office, announces that the office will be closed Monday, April 15, due to the observance of Easter Monday.

Persons scheduled to report on that date will be required to report on Monday, April 22. The office will reopen at 8 o'clock Tuesday morning, April 16.
