Only Requirement Is That Building Can Be Torn Down Without Expense

Chowan County Commissioners at their meeting Monday tentatively agreed to tear down the warehouse back of Hotel Joseph Hewes in order to provide more parking space.

The agreement followed a request by Alton Elmore on behalf of the Merchants Committee of the Edenton Chamber of Commerce. Mr. Elmore was accompanied by James Robinson, executive vice president of the Chamber of Commerce.

Mr. Elmore pointed out that the Town of Edenton is planning to hard surface the area adjoining the Belk-Tyler store, Edenton Furniture Company and P&Q Super Market but that this area will not take care of the parking problem. He expressed the opinion that if the warehouse area is devoted to parking, facilities will be almost doubled. He informed the commissioners that the merchants on both sides of Broad Street are very anxious to provide adequate facilities in the heart of the business district. He also stated that Edenton is one of the few, if not the only town with the opportunity to provide parking so near the business section.

The Commissioners were heartily in accord with providing the extra parking space providing there will be no expense in demolition of the building. They are hopeful that somebody will agree to tear down the building for the materials which can be salvaged. Chairman W. E. Bond was, therefore, authorized to enter into an agreement to have the building torn down, so that anybody who may be interested should contact Mr. Bond as soon as possible.
