

BROAD STREET BULLETIN

By KATE

Last week I asked if anyone had a good recipe for green tomato pie and it certainly was. I had several replies to my request. Mrs. Ruth Efrid and Mrs. Carolyn Swindell sent me very similar recipes and I was informed at the Farm Bureau banquet last Thursday night that Mrs. Paul Ober could tell me how to make the pie, also. Now that I have a breathing spell, between house guests and fishing, I shall try my luck at making this dessert for my Dutchman. Later on I'll report my success or failure. I'm just hoping that it will taste somewhat "like mother used to make."

As usual, our company this past week-end from Baltimore, came up with the words, "I can see why you like to live here, it would be nice if we could come here to live when we retire." Sure makes us appreciate our company and the place we live.

We received a most welcome card this week from one of our favorite people, our neighbor, Mrs. Ida Mae Roberson. Mrs. Roberson has recently developed cataracts in her eyes and is unable to read very much, but she does appreciate hearing from her friends. We hope and pray that she will be coming back to our neighborhood before too long.

We all fished at Nags Head this past week-end, with rather good results with nice size spots and too much sunburn. What gratifies me most is that with Buff's help, I have finally convinced my youngest son that fishing is fun.

September is proving to be, as always, an extremely busy month, almost like the beginning of a new year. Changes of all kinds taking place—for the very young, the beginning of school, for others the beginning of or returning to college. Seems like everything starts in September. Everyone gets back into harness for fall and winter. And that ever-present house cleaning again!

So many times recently I have come across the word "discotheque" in connection with the latest fashions and here, according to an article in a Baltimore paper, is the definition. The word actually means "record collection," but in today's fashion vocabulary this word means a kind of dress one wears to go dancing or partying after dark. The discotheque dress is almost always black, often crepe and must have a daring neckline. These dresses are worn a mite shorter, too. So now—go out and buy yourself a discotheque and LOOK YOUNG!

Did You Know That—

To make celery fresh and crisp, lay the stalks in ice water, to which a slice of potato has been added.

To take the creek out of door

hinges, rub them with a lead pencil.

Use a solution of white vinegar and water to remove perspiration stains from cotton clothing.

You can cut marshmallows easily with kitchen shears, which have been rubbed with butter or margarine.

Try washing your venetian blinds on the clothes line. Simply apply a solution of detergent, then turn the garden hose on them and let them dry in the sun. No trouble at all!

A happy and cheerful person to know is Marion Downum, (Mrs. Doc Downum). She seems to radiate friendliness and never seems to be down-in-the-dumps.

Marion takes a very active part in the Methodist Church and in various other activities around town, but finds time to enjoy her family and grandchildren. Actually, coming in contact with her will give you a lift.

Sure will appreciate any recipes and household hints, especially now that house cleaning time is here again.

Bateman Farm Bureau President

Bureau Federation is such an organization." Mr. Bateman referred to Esau selling his birthday to Jacob or a bowl of pottage, and said "Let farmers not make the same mistake by selling out their freedom for a few payments, subsidies and benefits. Your children's dream for a great future in farming can come true if you reserve this future by keeping farming free. I challenge you tonight to leave farming as free or your children as it was when you began."

Mr. Larry pointed out the farming is a team operation and rehearsed some of the activities of the State Farm Bureau. He emphasized the importance of Farm Bureau membership and said membership in the South has increased 20,000 over last year. He said it was important to have a membership large enough and strong enough to demand action on the part of those in power in government.

Mr. Bateman in a prepared speech pointed out that the Farm Bureau can do much for the interest of farmers and said something must be done about local membership. He reviewed some of the things done by the Farm Bureau during the past year and expressed the hope for a greater county organization in future years. Mr. Bateman said the Farm Bureau proclaims the voice of agriculture from the county level through the legislative halls of the country. "Farm Bureau is a means by which one here in Chowan County can present our problems and solutions to these problems where they can be heard by people who have the power to alleviate discriminatory policies against agriculture," he said.

"Not only must the voice of agriculture be heard in general," said Mr. Bateman. "Chowan County needs its specific problems heard. This can be accomplished by becoming strong dedicated members of an organization that can provide this service for us. The Chowan, North Carolina and American Farm

and American Farm Bureau Federation is such an organization."
