

BROAD STREET BULLETIN

By **Kate**

I'm in a state of indecision
About the ads on Television;
While doubting my individualism
I look at them with skepticism.

If advertising could keep me calm
And solve my many questions,
I'd buy the products without a qualm

It's frustrating to watch the lovely housewives fixing gourmet meals, dressed like they're going to a party, or to watch them show their special products, guaranteed to shine the windows better or make the floors more shiny, when you can hardly see out of your own windows, which need a good cleaning. Or after you've gone and bought their "best cleaner," in a few days there's a newer one and better. Ah, well, we all must strive for a "better life."

The front walks of the Buffay residence got a new look yesterday, when some friends from Florida stopped on their way home to Portsmouth and used their electric lawn trimmer. We can't decide whether they thought our lawn looked that bad or whether they liked to use their trimmer. Anyhow, we appreciate it very much and are now in the market for an electric lawn trimmer.

You need no longer shy away from knits and sheath dresses because of those tell-tale garter bumps around the thighs. A new garter grip that's less than one-eighth of an inch thick may be attached to the girdle you buy. The garter called the "Dress" will be produced by Warner.

Statistics show that Saturday is the most dangerous day of the week for traveling and the most dangerous hours are between 5 and 8 P. M. According to an insurance company, 21 per cent of all fatal accidents occur on Saturday.

Step outside early these spring mornings and enjoy that wonderful smell of honeysuckle which permeates the air. Each morning I gather bunches of it and arrange it throughout the house, along with mock orange, peonies and our roses which are blooming now—Happiness is Springtime.

It's strawberry time and this year they seem extra delicious. The best way we know of to serve them is with a sweetened biscuit dough and half and half milk and cream. Did I mention Calories? ? ?

The impulse to do good is worth while if the individual does good.

The Case of the Hidden Calories: The truth about you and your nice, relaxed, well-fed winter is about to come out. The places where the calories hide will soon be revealed by the coming of summer. The shape of things will now be disclosed by those sleeveless, skimmers for summer. I suppose we'd better start right now to test our self control, just hoping it isn't too late.

And—speaking about calories, this traveling here and you is not conducive to weight losing. We spent last weekend in Wilson at a press meeting and needless to say, what with delicious food and no housework, to help with excess energy—I reckon I added a few more pounds. It was an interesting meeting, however, with very interesting speakers and good conversation. The ladies were invited, Saturday morning to a Continental breakfast and even though I had eaten one breakfast earlier with Buff, my curiosity led me to find out what was a Continental Breakfast. It turned out to be delicious coffee and various kinds of pastries and meeting other press-wives—while the husbands were attending a business meeting. A nice relaxed—couple days.

"SUPER-RIGHT" QUALITY HEAVY CORN-FED BEEF

STEAKS

BONELESS TOP ROUND LB. 85^c **BONELESS BOTTOM ROUND LB. 79^c** **CUBED ROUND STEAK LB. 95^c**

no matter who makes it, if A&P sells it, A&P guarantees it!

For example. Your A&P may sell as many as six or seven different brands of canned peas—national, regional and A&P's own brands. It doesn't matter what company cans them...if A&P sells them...A&P guarantees them.

Unusual? Not for A&P...because WE CARE...about your complete satisfaction.

Is this a good reason for shopping A&P? It's one of many!
