

# Around The Farms Chowan County

BY C. W. OVERMAN, CHOWAN COUNTY EXTENSION CHAIRMAN

**Peanut Reminders:** Start peanut leaf spot control applications immediately. An application every 12 to 14 days is necessary to protect new growth as it comes. Leafspot can be prevented but not cured after starting.

Copper-sulfur dust is still one of the most effective materials for leaf-spot control. Early applications of 15 pounds per acre directed closely on the plants is sufficient. As plants get larger, increase to 18 or 20 pounds per acre.

Boron should be applied at the rate of one half pound per acre. This may be applied in one copper-sulfur application or in one 500 pound application of landplaster. It may be purchased already mixed. Use boron only one time.

Spray materials recommended for leafspot control consist of Liquid Copper, Copaloid, TC-90, Calcop 10, Dacnil 2787, and Cypres 65W. Follow manufacturer's label for application. These also should be applied at 12 to 14 day intervals.

Some peanut growers have trashy fields. Trash

is good organic matter but should be plowed under and left there. Southern stem rot spores live over on trash at the ground surface, often infecting peanuts and soybeans. Control is preventive, not a cure. Dusting or spraying the plant area thoroughly with 12 to 15 pounds actual tractor per acre now should prevent infection.

Cultivate shallow with at least eight inch hoes set flat next to peanuts. Growers who throw soil on peanut plants are flirting with stem rot. Growers who cultivate much over an inch deep are pruning off roots and reducing yield. Roots are reaching out in the middles now.

Watch peanuts for insect infestation. Use sevin in leafspot chemicals when needed.

**Managing the Farm Business:** A special TV series on "Managing the Farm Business" will be conducted this summer by Dr. Robert Wells and Dr. Charles R. Pugh of N. C. State University. The one-half hour programs will be initially shown on Channel 4, WUNCTV and Channel 2, WUNB-TV at 12:00 noon on successive Mondays, July

3 - August 7. Program topics are scheduled on educational TV as follows:

July 3—Planning Changes in Farm Practices.

July 10—Enterprise Budgets.

July 17 — Total Farm Planning.

July 24—Farm Labor.

July 31 — Leasing Arrangements.

August 7—Family Farming Agreements.

Tune in and profit by this information.

**Summer Care of Strawberries:** To have plenty of nice strawberries next spring proper summer care of plants is necessary.

Topdress with 30 pounds of nitrogen per acre now, 200 pounds nitrate of soda or 150 pounds ANL or Cal-

Nitro. In the garden use 1 pound or 13 pounds respectively per 10 feet of row. Repeat again in late August.

Keep plants free of weeds and grass.

Control red spiders by spraying with Syntox, Kelthane or Malathion.

Control nematodes by injecting nemagon or fumazone into the row. Irrigate in dry seasons.

## Holiday Driving Warning Noted

Too much independence in your driving during the long Fourth of July holiday could steer you into one of the projected 1,377 traffic accidents on North Carolina's streets and highways which the N. C. State Motor Club warns may claim at least 26 persons killed and 884 injured.

While Independence Day falls on Tuesday and most businesses will operate as usual on Monday, the state will officially count its holiday highway toll from 6 P. M. Friday, June 30, through midnight Tuesday, July 4, a period of 102 hours, since many workers plan to take off the full four days. For the 78-hour holiday last year, North Carolina's traffic toll added up to 19 killed and 676 injured in 1,051 accidents.

Leading driver violations reported were: speeding, 193; driving left of center of the road, 163; following too closely, 115, and failure to yield right of way, 103.

Leading driver violations reported were: speeding, 193; driving left of center of the road, 163; following too closely, 115, and failure to yield right of way, 103.

Leading driver violations reported were: speeding, 193; driving left of center of the road, 163; following too closely, 115, and failure to yield right of way, 103.

## Parcel Change Begins July 1

Mailers will be able to send 25 pound parcels between first class post offices which are 150 miles or more apart starting July 1, Postmaster James M. Bond reminded patrons today. The present weight limit is 20 pounds, he said.

This is the first of five increases scheduled to take effect annually until 1971, when a 40-pound, 84-inch maximum size will be authorized between all first class post offices. Size limitations are now 72 inches in combined girth and length. The next increase, on July 1, 1968, will raise the weight limit to 30 pounds. On July 1, 1969, the weight limit will be increased from 30 to 40 pounds; on July 1, 1970, the size will be increased to 78 inches, and on July 1, 1971, the size is scheduled to be increased to 84 inches.

Postmaster Bond also reminded mailers that parcels weighing up to 40 pounds can be mailed between first class post offices less than 150 miles apart. Packages addressed to and from second, third and fourth class post offices, Alaska and Hawaii are not affected by the increase in size and weight provisions of Public Law 89-573, which became effective January 15, he said. Parcel post mailings to and from these offices remain at 70 pounds and 100 inches.

## Legion Juniors Having Trouble

sharing mound chores for Edenton. Mel Browning had two hits in four trips to the plate.

Ahoskie got 14 hits as Coach Dave Bumgarner sent three Edenton pitchers to the mound. Eddie Spencer was relieved by Glenn Stokes in the seventh. Stokes was pulled in the eighth in favor of Fred Keeter.

Edenton's American Legion Juniors, in their first season in the league, are finding the going rough.

Last week they went to Raleigh and after leading three to nothing in the first inning, allowed Raleigh to push across four runs to claim victory.

Monday night they were completely outclassed by Ahoskie, in a game at Hicks Field. The score was 10-1.

At Raleigh, Robbie Gorell struck out 19 of the lads from Post 40 with Tim Riddick and Eddie Spencer

## IN WASHINGTON, D. C.

H. S. Ziegler, Sr., is in Washington, D. C., where he will attend the funeral of his sister, Mrs. Susie Z. Eymann.

Mental strain exacts a more deadly toll than physical strain, and in a more disguised manner.

## HERALD LEGAL ADVERTISING

**Notice Serving Process By Publication**  
State of North Carolina, Chowan County.

In the General Court of Justice  
District Court Division  
Betty Miller Prehm, Plaintiff,  
vs.  
Lester Paul Prehm, Defendant.

To Lester Paul Prehm: Take notice that a pleading seeking relief against you has been filed in the above entitled action.

The nature of the relief being sought is as follows: An action for absolute divorce on the ground of one year's separation next preceding the commencement of this action.

You are required to make defense to such pleading not later than August 10, 1967, and upon your failure to do so the party seeking service against you will apply to the court for the relief sought.

This 19th day of June, 1967.

built Christianity in forward leaps.

Everyone has some kind of need. If we will just take the trouble to look around we will see many ways in which we can demonstrate the ability of

Christianity to answer that need. We, too, can be missionaries in our humble way.

## HOSPITAL PATIENTS

**VISITING HOURS:**  
2 to 4 P. M.—7 to 8 P. M.

Patients discharged from Chowan Hospital the week of June 20-27 included the following:

Mrs. Frances Perry, Mrs. Jean W. Wiggins, Mrs. Marion Nixon, Mrs. Bessie Gillespie, Mrs. Georgia G. Hall, Miss Janice Jones,

Mrs. Helen Furlough, Miss Debbie Lynn Jordan, Carlyle Webb, Mrs. Margaret Brown, Mrs. Elizabeth Small Wright, Mrs. Myrtle White.

### Births

Mr. and Mrs. Joseph B. Perry, Jr., a daughter; Mr. and Mrs. Kenneth Abram Wright, a son; Mr. and Mrs. Haywood Collins, a daughter.

**It may be a lifesaver**

■ A home without basic first-aid supplies is in a dangerous position. Accidents can happen at any time. We'll be glad to suggest an inexpensive assortment of first-aid needs... gauze, tape, antiseptic, burn ointment, etc. But remember, though first aid can save lives, it's often important to follow up with a visit to your doctor. Only he is qualified to judge the seriousness of an injury and prescribe proper medical care.

## Soil Society Meeting Held

Lloyd C. Bunch, W. O. Lambeth, Stanton Harrell and T. J. Barnes from Edenton attended the 18th annual meeting of the North Carolina Chapter of the Soil Conservation Society of America. The meeting was held in Washington, N. C., this year and was attended by 210 society members and their families.

The theme of the meeting this year was "Planning Ahead to Meet Needs of the Future." In keeping with this theme a number of authorities on land and water resource planning and development presented papers.

Dr. J. W. Pou, executive vice president of the Wachovia Bank in Greenville, gave the keynote address. He discussed "Proper Land Use in the Growth and Development of the State."

Others on the program included George J. Monaghan of the Community Planning Division of the N. C. Department of Conservation and Development; David H. Howells, director of Water Resources Research Institute; Charles C. Stott, Recreation and Parks Department at N. C. State University and C. S. Sawyer of the Soil Conservation Service, Columbia, N. C.

C. W. Chapman, president of the national society, talked with N. C. Chapter members at a breakfast on Saturday morning. On Saturday those attending went on a tour of the Texas Gulf Sulphur operations near Aurora and other points of interest along the way. W. W. Stevens of Raleigh is the current chapter president and the general chairman for this meeting.

The Soil Conservation Society of America is a professional society dedicated to the art and science of good land use. The North Carolina Chapter has about 253 members scattered throughout the state.
