### ARE YOU BEING ROBBED BY A PROFIT STEALER?

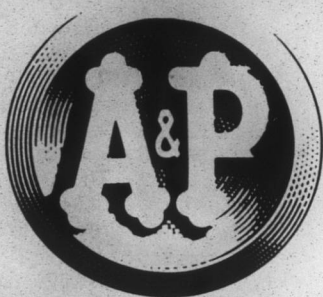

It's an old story . . . but proof-positive—year-old tractors, in some cases, are robbing their owners blind.  
 Authoritative tests, conducted by impartial engineers at the University of Nebraska, proved every tractor loses power during a year's work on the farm. Furthermore, some tractors lose as much as 20 per cent in power. AND in most cases, their farmer-owners were not aware of this power loss. Such loss means more hours to do the same job . . . not to mention extra gallons of fuel wasted.

The skilled mechanics in our shop can rejuvenate your tractor quickly . . . efficiently; they'll do only the work that's necessary; do it quickly . . . with a minimum of delay . . . at the lowest possible cost. Why throw away those profits? Come in this week and let's talk over your service needs!
