

Young Church Growing

The Anglican Orthodox Church, organized in November, 1963, has spread throughout the world in four years, says its presiding bishop, Rev. James Parker Dees, whose headquarters are 315 East Front Street, Statesville, and who celebrates the fourth anniversary of his consecration to the Episcopate on March 15.

Organized by former Episcopalians who were concerned about the preservation of their Anglican traditions and Biblical Christianity, the denomination now has congregations extending from Miami, Fla., to Buffalo, N. Y. to Seattle, Wash., to San Diego, Cal., with members throughout the United States, Canada and many

foreign countries.

According to Bishop Dees, the church is basically committed to proclaiming the Gospel of Jesus Christ with its aim the salvation of souls and growth in the Holy Spirit. Bishop Dees says that he "decries" the use of the established churches for the spread of what he considers to be "unchristian" social, economic and political concerns. "The concern of the church," he says, "is to bring souls to Christ and to worship Him, their Saviour and Redeemer, in the spirit of the Holy Ghost, the Sanctifier." Anything that detracts from this goal, he thinks, is "of the Devil."

Bishop Dees refers to the Anglican Orthodox Church as being the "real" Episcopal Church because it uses the Book of Common Prayer and believes the fundamental teachings of the Bible, as did the reformers of the Church of England. Inquiries from interested persons are invited.

The Tie That Binds

The wedding ring may not be as tight as a tourniquet but it usually stops the circulation.

Ulcerous Source

Doctors agree that stomach ulcers come from something you hate, not from something you ate.

—Eagle, Dothan, Ala.

Cherry Belle is a popular radish, round and red, with crisp white flesh. It retains its eating qualities for a long time.

THERE'S A DIFFERENCE

If you think that a radish is a radish and all of them are just alike, you're wrong as wrong can be. Just one example: it may take as short a time as 22 days, as long a time as 29

days for different table varieties to be ready to eat.

There are numerous varieties, too, colored scarlet, red, white or scarlet and white. Shapes vary—from long, tapering roots white radishes like White Icicle to round, red radishes like Cherry Belle (illustrated) or the new, scarlet Red Devil.

The two-toned variety is Sparkler, with round or almost round roots, their upper portions deep scarlet, their lower thirds white. This is an attractive addition to a relish plate.

In addition to the "spring" radishes that every gardener grows, there also are summer radishes that, because they take a longer time to mature (40 days) are ready for use later, and fall and winter radishes.

With these, maturity depends on planting time—early summer for fall use; midsummer for late fall and winter use.

Who Knows?

1. The sixteenth amendment was ratified by Congress February 25, 1913. What was it?
2. Identify William F. Cody.
3. When was the Republican Party founded?
4. Who wrote the book, "The Green Berets"?
5. Where does March get its name?

Answers To Who Knows

1. This amendment provided for a federal income tax.
2. The well-known scout and Indian fighter, Buffalo Bill, born February 26, 1846.
3. February 28, 1854.
4. Robin Moore.
5. From Mars, an ancient Roman deity.

Attention, Parents!

On every street or corner in your community there are many boys that need guidance in order that they will be better citizens for tomorrow and for years to come. First of all, try to encourage your son and other boys in your community to join the Boy Scouts of America.

I sincerely hope and trust that every true American will support and contribute to the boys in his or her own way to upgrade boys in their locality.

The population is rapidly increasing in the number of boys that need scouting. Give them a sense of belonging with your cooperation.

Help your son and boys in your community to be trained for physical and mental fitness.

Your country needs men and women who are not afraid.

Finally, I urge you to develop today's youth and your son into tomorrow's responsible citizens and leaders.

This is an old saying, where there is no responsibility, there is no progress made.

May I urge you again to reform your duty to God and your community, and have faith to stand up proudly and say that you have been the means of helping the boys in your community in the right channel of life.

After all, scouting rounds a boy out for leadership.
G. W. COOPER.

Time is running out to sign up for Medicare doctor-bill insurance. The deadline is April 1.

Bad Month For Drinking Drivers

RALEIGH—February, although a couple of days short of a regular month, was bad news for motorists who drink and drive.

The State Highway Patrol announced Thursday, March 14, that arrests for driving under the influence during February were the second largest for any single month in the Patrol's history.

Lieut. Col. Edwin Guy, Patrol executive officer, reported DUI arrests for February totaled 1,321 as compared to 852 for the same month in 1967. This represents a 55 per cent increase over the same period in 1967.

Of the total of motorists charged with driving under the influence, Lieut. Col. Guy said, 62 per cent were administered Breathalyzer tests. This repre-

sents the largest number tested in any one month.

The Patrol official stated that 295 were offered but refused the test while the test was not available to 188 persons.

Three out of four of these persons tested during February, the Patrol officer said, were .15 or higher. Under the North Carolina law it is presumed a person is under the influence if the Breathalyzer reading is .10.

The Patrol officer pointed out in his monthly report that conviction rates for those persons tested continues to run unusually higher than those not tested.

In the 1967 annual report, just out, the Patrol reported DUI arrests for 1967 were up by 33 per cent over 1966.

from market to table

by your Vepco Home Economist

Company coming to dinner? You'll want to impress them. But think twice before serving rib roast or filet mignon. Consider a less tender choice, economical and just as impressive—our LONDON BROIL.

For six, you need a 3-pound round steak, 1" to 1 1/2" thick. Sprinkle both sides with meat tenderizer (do not salt). Pierce all surfaces at one-inch intervals with a fork, cover and refrigerate overnight. Then broil. For a rare steak place on rack in broiler pan 3" to 4" from source of heat. Broil for about 10 minutes, turn and broil for about 8 minutes. For medium doneness, place broiler pan 5" to 6" from source of heat. Broil for about 12 minutes, turn and broil about 10 minutes.

While steak broils prepare the following sauce. In a saucepan combine 1/2 cup beef bouillon, 1 cup dry white wine, one 4-ounce stick of butter, 3 tbsp. lemon juice and 1/2 tsp. ground pepper. (If you wish to omit the wine, substitute 1 cup bouillon and increase the lemon juice to 6 tbsp.) Bring to boil and simmer. Cook until butter is melted. Just before serving add 1/4 cup minced parsley and 1/4 cup chopped chives. Now your steak is ready to carve. Cut steak in diagonal slices at about a 30° angle. Serve steak on a warm platter and sauce in a gravy boat. Serve together.

The cost of this creative, thrifty dish will be anywhere from \$3 to \$4, depending on what you pay for round steak. And the cost of electricity is less than 3c. Quite a bargain, electricity. Even better than round steak.
