AT CONFERENCE—Pictured while attending the Family Planning Conference of the Mid Atlantic Region of the Office of Economic Opportunity on April 3 in the Burlington Hotel, Washington, D. C., are: Mrs. Catherine B. Slade, Family Planning Nurse for the 10 County (Albemarle) Economic Improvement Council, Edenton, N. C., and Dr. Gary D. London, OEO Family Planning Director, Washington, D. C. The meetings are being held in seven regions throughout the country in order to improve and extend the delivery of OEO-funded family planning services, according to Dr. London. Attending are representatives of Community Action Programs, public and private health agencies, the Office of Health, Education and Welfare, and others interested in family planning.

MINE MAKER

A 1,200-ton dredge, the largest single piece of equipment ever used to develop a mine in Northern Manitoba, required 35 railway cars to haul it to the site. It is used to remove overburden at one of International Nickel's mining projects in the area.

Who Now?

Spiritualist—"Ah, I hear the spirit of your wife knocking."
Widower—"Who's she knocking now?"

Proof

"Mummy, the pants you made me are tighter than my skin," said the little one.
"Nonsense my boy. Don't say silly things like that."
"But they are. I can bend in my skin and I can't in my pants," he replied.

Wise Father

Experience does teach—a man never wakes up his second baby to see it smile.

Special Classes Set By Colleges

RALEIGH—Eighteen community colleges and technical institutes in North Carolina will offer a total of 34 technical programs in 11 different curricula in agricultural and biological education during the 1968-69 school year.

These 11 curricula, all two-year programs, lead to the associate in applied science degree.

The need to train technicians has become more pressing with each passing year as agriculture takes on new emphasis.

According to Fred W. Manley, educational consultant, Department of Community Colleges, the 11 technology programs which will be available include: agricultural business, agricultural chemicals, agricultural equipment, veterinary medical, food processing, agricultural research, forest management, orna-
