

Parachute Instructor Added At Airport

A certified parachute instructor has been added to the staff of Edenton Aviation, Inc., operators of Edenton Municipal Airport.

Marvin Shaw, a company official, said Bill Stallings of Hertford, formerly with Norfolk Skydiving Club, has leased a portion of the big hangar and will be available for instruction on a regular basis.

The improvement program at the airport is continuing with painters nearing completion of painting the administration building.

Activity at the airport has been brisk and Shaw reports a count of 55 visiting aircraft registered during August.

Also, local interest continues on a high pitch. Nine people have soloed since a qualified instructor was obtained. Robert Dail, local radio personality,

was the first to solo under direction of Jerry Stewart, chief flight instructor. This was June 1.

The latest to take it alone was Leslie Kirby who lost his shirt-tail in traditional ceremonies Monday.

John Douglas, son of the president of the aviation company, became the youngest to solo when he performed the feat on July 24. Bert Hughes, a paraplegic, lost not only a portion of his shirt but a spoke from his wheelchair and a bit of his mustache on August 4.

Others to solo include: Albert Ward, Lloyd Adams, Robert Allen, Billy Ricks and Milt Flynn. There are others nearing solo status.

Stewart is currently conducting a ground school with 25 in the class, including two women, Mrs. Paula Hughes and Mrs. Betty Dail.

BROAD STREET BULLETIN

— BY —
Kate

He was such a humble fellow
Faithful, gentle and kind.
Respected by all who knew him
Keen and clever in thought and mind

I think everyone who knew him, was sorry to hear of his death, Wilborne Harrell, altho thought eccentric by many, was truly a clever man and dared to be himself. I'm sure that many times he was lonesome and alone, but here's wishing for him a safe journey to God's Kingdom.

From all I can hear about it, the coming school days are bound to be a pure "mess". I wonder if EVER, people will learn to live together . . . PEACEFULLY.

United States, up through Canada and on to Minto. Before long they'll be home with many "tall stories", I'm sure. Here's hoping them a safe trip home.

If you're alone and feel you'd like a change, do something about it. According to an article I came across recently, that one can find a new job most any place and a new location, with new friends may be the turning point in your life. You can always return you know!

So far, so good . . . the four Mosquiteers have arrived at their destination at Minto, Alaska, after a wonderful flight across the

Now, at the end of the corn season, when the kernels are apt to be a little hard and tough, you can try some different recipes

and still use the corn for delicious dishes. There's fried corn . . . just take a sharp knife, score the kernels and cut from the cob. Fry in butter or bacon drippings, add salt, pepper and sugar . . . delicious! Or, cut the corn from the cob, add to your favorite fritter recipe and mix in the blender . . . corn fritters, good at any time.

A Few Hints:

If postage stamps stick together . . . just put in the freezer for an hour, then they will come apart with mucilage intact. Tape a small emery board to your desk to keep

your erasers clean.

You can avoid mosquito bites by rubbing your arms and legs with vinegar.

Tip: Single girls who want to make the best impression on their boy friends, should equip their homes with rose colored lights. White bulbs are harsh on the complexion.

Careful

"The motorist that hits me will certainly be sorry," said the dusty pedestrian.

"Why," asked his companion, "Because," said the other, "I'm carrying a stick of dynamite in my pocket."

Trucking Big Business

WASHINGTON — Each year the trucking industry buys nearly five million gallons of paint, 176 million pounds of lead, 26 million gallons of anti-freeze and 21 million tires.
