**YOUR SOCIAL SECURITY**

Donald Morris, Field Representative of the Social Security Administration, is in Edenton every Thursday from 9 A. M., to 1 P. M., and is located in the Court House.

The social security office is more than just a place to file claims for social security benefits.

In addition to assisting people in filing claims for retirement, survivors, disability and Medicare benefits, the office takes applications for social security cards and assists in reporting events that might affect benefit payments.

One special service the local office renders is that of helping to provide a statement of earnings credited to the worker's account. Many people each month avail themselves of this service.

The social security office is glad to give information and literature about any part of the program, and the staff will assist any group or organization in informing its members on social security through talks, special films and other available material.

The public is urged to contact the office at 401 South Dyer Street, Elizabeth City, when they have questions about social security. The office is open 8:45 A. M. through 5 P. M. from Monday to Friday, and on Saturday mornings from 9 A. M. until 12 noon.

And then there is the well known but shy actor, who dropped into a Broadway restaurant very early in the morning, or very late the other night, anyway you want to put it. He sat at a table and waited—and waited. Three waiters, at a table in the rear, were earnestly playing pinochle. Finally, after long minutes, the proprietor sauntered through and caught the situation at a glance.

**Hospitality First**

“That’s how it is,” he roared. “I got three waiters and they can’t even wait on one lousy customer.”

“That’s how it is,” he roared. “I got three waiters and they can’t even wait on one lousy customer.”

“That’s how it is,” he roared. “I got three waiters and they can’t even wait on one lousy customer.”

**Face Of Eastern North Carolina**

Continued from Page 2

for a multi-purpose classroom building.

With basic planning scheduled to be completed by January 1, 1969, however, the commission anticipates that funds for new projects in Eastern North Carolina will be made available early next year.

The Coastal Plains program suggests an exciting future for Eastern North Carolina.

The region has been experiencing solid growth in

many areas, yet the future holds almost unlimited potential.

The commission cannot solve all the problems that stand in the way of total development of the region. Private initiative and investment are mandatory and the people of the area will ultimately determine the rate and extent of development.

The commission, however, can be the motivating factor necessary for accelerated growth.

The decision is up to the people.
