Education Week Observance Set

Edenton-Chowan Schools are taking part in American Education Week, November 10-16. The theme is: "America Has a Good Thing Going—Its Schools." America does have a good thing going in its schools, says a local NCEA official, and it faces a big challenge to keep it going and improving. The observance of this week gives the community the opportunity to observe its schools, appraise them and offer support for improvement.

Wednesday night open house was held for the Walker Parent - Teacher group with students in grades seven through 12.

Tonight (Thursday) has been set aside by Walker primary, Swain, Chowan, White Oak and Holmes schools as the day the parents are cordially invited to visit.

"Come see for yourself the educational strengths of the school and constructive criticism to help overcome its weaknesses will be welcomed, a spokesman said.

"America does have a good thing going in its schools—and you can help to make it better by your participation," it was said. "Visit the public library, the lobby of the county office building and view the educational displays, also."

Hiram A. Weeks' Mother Succumbs

Mrs. Mamie Bond Weeks, 82, mother of Hiram A. Weeks of Edenton, died in Lee Memorial Hospital at Sanford Monday after a long illness.

How food fads can fool you

We don't mean there's anything wrong with eating yogurt and wheat germ and so on. They are fine, healthful foods. But here's the rub. Advocates of some food fads promise benefits that diet alone can't deliver. Occasionally, someone with a medical problem will try to solve it by living mostly on cabbage juice or some such thing. Special foods and diets, however, have limitations—can be harmful when improperly used. So if you think there's anything wrong with you, by all means see your physician.
