

Senator Jordan Reports SKIDDING FOR SAFETY

From the Office of
Sen. B. Everett Jordan

WASHINGTON — As in past years, quite a number of North Carolina students will want to find temporary jobs with Uncle Sam this summer.

For some the lure will be the idea of working in Washington at a time when a new administration is just getting into gear.

For others, the appeal may be the chance to mix play with pay in one of the many national parks and government-owned recreation areas that dot the country.

The chief attraction in many cases will be a job that combines the opportunity of acquiring work experience with the financial stake that will let them enter or continue college.

Opportunities in a wide variety are available—though not in the numbers of some past years because of the current economic situation in government.

Jobs that are available are open to any who can qualify by age and scores on competitive examinations offered by the Civil Service Commission.

Time is, however, running out for those who may not already have made a preliminary move.

Applications will be accepted only through January 30, with examinations to be scheduled March 8 for those who meet that deadline.

Of course, merely applying is not going to insure a job because the competition is going to be keen. Last year, for example, only 25,000 jobs were filled throughout the country from among about 133,000 who sought the temporary employment.

For the benefit of those wanting such work, the Civil Service Commission has issued a booklet giving full information on what is available, the eligibility standards and instructions on where to file applications.

Copies can be secured through my Washington office upon request or from the Civil Service Commission, 1900 E Street, N. W., Washington, D. C.

Inquiries to the Commission should be marked "Summer Employment Application" to avoid delay in handling.

The time for action is now if you are one of those wanting to make a bid.

structions on where to file applications.

Columbia Beats Chowan Teams

By DIANE PEEDIN

Chowan High School dropped two straight games to Columbia last Tuesday night at Columbia. The Bulldogettes were defeated 35-19 while the boys lost 53-49 in an overtime cliffhanger.

Overpowered by a height advantage, the Bulldogettes scored only one point in the first quarter, while the Columbia girls netted 11 points. In the second quarter the Columbia Wildcats pushed their advantage to a 19-6 score. They further increased their lead in the third quarter. At the end of the third quarter the score was 25-11. A fourth quarter rally, sparked by Patricia Perry's lightning-fast moves, was stopped and the final score was 35-19.

High scorer for the Wildcats was Sue Voliva with 11 points. Linda Rhodes and Jane Hopkins

were tied with eight points each. Also scoring for the Wildcats were Libbie Oakes with seven and Sharon Ward with one.

Rhonda Bunch and Vickie Goodwin each scored five points for the Bulldogettes. Lottie Baker and Patricia Perry netted four points each while Wanda Ward scored one.

In the second game the Bulldogs were down one point at the end of the first quarter. Chowan assumed and maintained a commanding lead during the second and third quarters. In the fourth quarter they pushed their lead up to 13 points. Too many fouls and bad passes took their toll on the Chowan lead and the horn sounded with the score tied at 45-45.

In the overtime period Columbia scored eight points while the Bulldogs scored only four. The final score was 53-49.

High scorer for the Wildcats was Jay McCless with 17 points. Howard Swain netted 13 points and Tommy Cahoon made nine. Also scoring were Buddy Riddick and Guy Swain with six and eight points respectively.

Fred White was high scorer for the Bulldogs with 12 points. Close behind him were Steward Copeland with 11 and Henry Hinton with 10. Tommy Bass and Vernon Parks also scored eight points each.

Business

"I always encourage my husband to recline in an easy chair and put his feet on the mantelpiece."

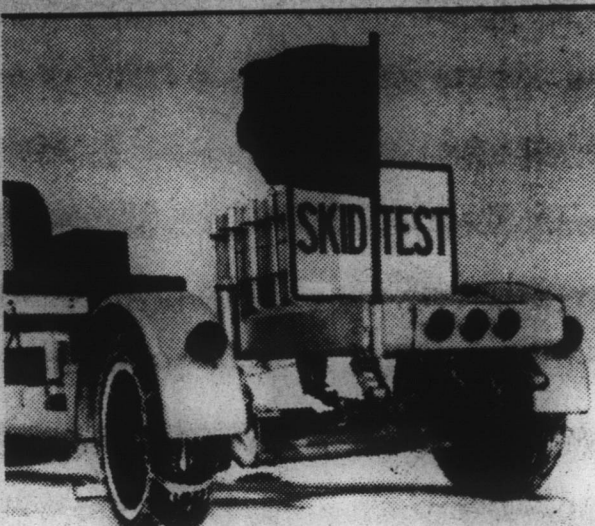

"Why?"

"When he goes to bed there is usually some small change left in the chair."

A Mental "Facial"

Wife—Richard, my mind is made up.

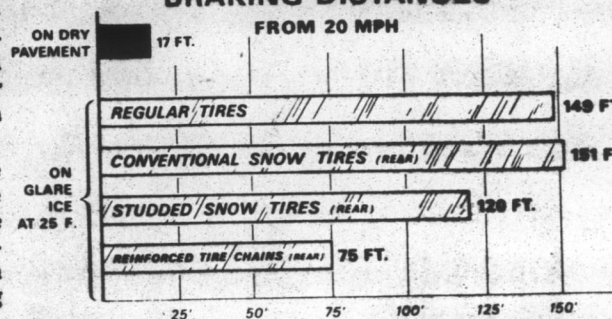

Hubby—Heavens, is that artificial, too?

TENNESSEE SKID TEST TRAILER

—one of the devices used by the National Safety Council's Committee on Winter Driving Hazards during its annual winter test project to measure the stopping ability of various types of tires, chains and other equipment.

BRAKING DISTANCES

These findings point up the extreme hazard of driving on glare ice—showing that with regular tires it may take close to nine times as far to stop as on dry pavement. The Safe Winter Driving League cautions drivers that regardless of the type of traction device employed—even with tire chains—far slower than normal speeds are essential on icy pavements.

Cotton Demonstrations In Chowan

"Two cotton variety demonstrations, each with six varieties, were conducted in Chowan County," reports Harry Venters, agricultural extension agent.

"Both demonstrations were machine harvested and a final calculation of yield in pounds of lint per acre was made. The six varieties included in the tests are popular varieties now being planted extensively or varieties that show promise of commercial value to the cotton producer."

Results on the farm of H. F. and Carroll Byrum:

1. TH 149, 919 pounds

2. Coker 201, 912

3. McNair 1032, 899

4. Coker 413, 865 pounds

5. Coker 7923, 820

6. Atlas 67, 760 pounds
