Funny People

"Some people are funny," mused the man in the bar. "I know a man who hadn't kissed his wife for ten years. Then he goes and shoots a fellow who did."

Advised!

Boss—Who told you you could neglect your office duties just because I give you a little kiss now and then?

Secretary—My attorney.

"What can I do

about this pain?"

Customers often ask questions like this. And every year we sell perhaps a ton

of pain relievers. Relievers. That's the point. We can sell simple analgesics, but we can't prescribe drugs to eliminate the cause of pain. Diagnosing and prescribing are in your physician's province. We, as professional pharmacists, work with doctors, providing the drugs they order. So, if you have any kind of a persistent pain, see your physician. We shall be pleased to provide any medication which may be prescribed.
