

Chowan High News

By Brenda Sawyer

Romeo and Juliet," commented one of the senior girls. The boys had only this to say about it, "If we had known the girls were planning to shower the place with tears, we would have brought our umbrellas."

Final Touches Added

Final touches are being added to the gym for the annual Junior-Senior which will be presented tomorrow night. Approximately 200 people are planning to attend. Those attending are: juniors, seniors, faculty members and the Board of Education members.

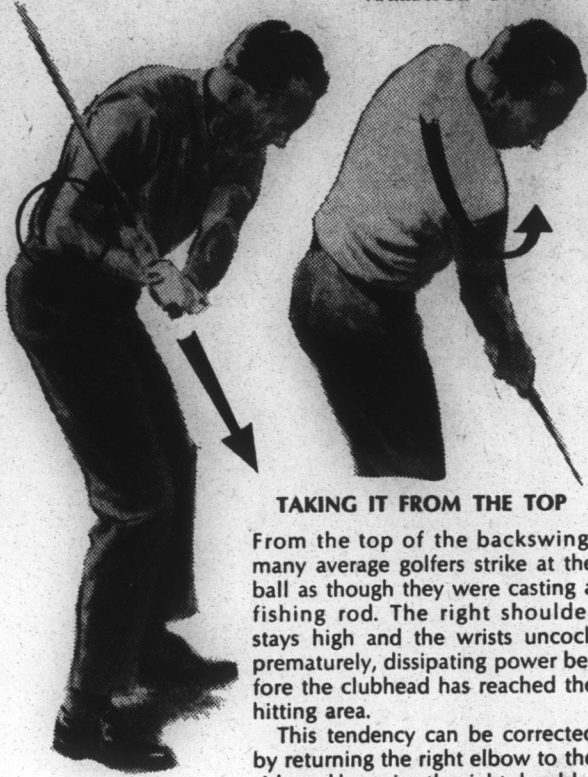

After touring the museum, the group spent a few hours in the shops of downtown Norfolk. They then had supper and later attended the movie, "Romeo and Juliet."

"The movie was great, I just felt so sorry for both

HOW TO SOLVE GOLF PROBLEMS

JIMMY DEMARET... NARRATOR "SWWC" *

TAKING IT FROM THE TOP

From the top of the backswing, many average golfers strike at the ball as though they were casting a fishing rod. The right shoulder stays high and the wrists uncock prematurely, dissipating power before the clubhead has reached the hitting area.

This tendency can be corrected by returning the right elbow to the side and lowering the right shoulder under the chin on the downswing. Pulling the club straight down, as though you were pulling a window shade by its string, will also help preserve clubhead speed until impact.

Maintain the wrists in a cocked position for a powerful, delayed hitting action.

*"SHELL'S WONDERFUL WORLD OF GOLF"

Proceedings Of Town Council

Continued from Page 2

herein.

Upon request of the Administrator, the Mayor requested Councilmen Parks and Hollowell to work with him in considering the summer recreation program and to make recommendations to the Council for the upcoming summer.

Annuals Furnish Quickest Shade

It takes years for trees to reach the size where they really furnish shade. The same applies to shrubs. But annual vines will grow so fast that before you know it you'll have the shade you crave.

The scarlet runner bean has been used for years to shade and screen back porches. In addition to scarlet flowers (there is also a white-flowered form) it furnishes edible beans. Reach out and harvest them.

Morning glories do a good job of screening. Choose the flower color you like best - Heavenly Blue, white, as in Pearly Gates, or Rosie O'Grady, rose.

Close relatives of morning glories are moonflowers. The vines look much the same but, as their name suggests, these blossom at night. You don't need shade at night, but you'll certainly enjoy the heady fragrance of these flowers.

The vine called Cathedral Bells, which you may know as Cobaea, is another rapid grower. It grows in sun or shade, has no insect enemies, and produces large, graceful blue bell-shaped blooms all summer.

Of course you can always plant seeds of Kudzu vine, which is sometimes suggested as the plant on which Jack climbed to meet the Giant.

This grows fast, has large leaves to keep off sun, and clusters of lavender flowers over a long period. If it does too good a job of shading, prune off a few leaves.

PICK OF THE PIG

A lure can be decorated in many ways to make it more enticing and more effective.

Of all the "additives" that can be combined with regular offerings, observe the fishing authorities at Mercury outboards, nothing beats a hunk of pork.

Regardless of the species being sought, this particular adornment will work miracles from the seashore, through the warm water areas, to the haunts of the arctic grayling.

The pork rind is available in shapes, sizes and colors specifically designed to arouse the feeding instincts of nearly every fish that swims. From bluegills to muskies, sails to salmon, a chunk of pork has been the downfall of many a reluctant battler.

Administrator Gardner reported to the Council on negotiations for the off-street parking lot owned by the Hobovsky family and reported that they will accept no less than \$24,000. Motion by W. H. Hollowell, Jr., seconded by D. G. White, unanimously carried that the final top offer of \$20,000 be made for the property and directed the Administrator to advise the owner that this would be the highest and last offer that the Town will consider due to the fact that after consulting with a number of eligible citizens, this price was felt to be entirely adequate and fair.

Motion by D. G. White, seconded by H. G. Quinn, unanimously carried authorizing the advertising of delinquent real property taxes in May, 1969.

Upon request of the Tax Office, due to the fact that both houses were torn down, motion by D. G. White, seconded by W. H. Hollowell, Jr., unanimously carried relieving taxes on A. S. Smith property located on E. King St., in the amount of \$8.12 for 1968 taxes and 1967 taxes on Thomas J. Jackson property purchased by the Town of Edenton in the amount of \$43.50.

Messrs. Earl Lane, Ken Stalls, and Carroll Wood Jones were present to request the Council for assistance in the work to be done on the Edenton National Guard Armory. It was expressed to those present that the Town had given this Armory to the State with the promise that it would be properly maintained. On motion by Leo Katkavek, seconded by D. G. White, it was unanimously carried to approve \$1,000 appropriation for this work.

Motion by D. G. White, seconded by W. H. Hollowell, Jr., and unanimously carried approving E & W bills in the amount of \$26,795.32 for payment.

Motion by Leo Katkavek, seconded by H. G. Quinn, unanimously carried approving Town of Edenton bills in the amount of \$10,510.93 for payment as follows:
