

Officers Picked At TB Meeting

The annual meeting of the Eastern Tuberculosis and Respiratory Disease Association was held April 16 at the Town and Country Restaurant in Williamston.

Dr. Lynwood Williams of Kinston, president of the association, presided at the meeting, at which time reports were made by staff members, followed by a meeting of the board of directors and report from the nominating committee.

New officers to serve for the coming year include: Edward Davenport of Elizabeth City, president; Dr. Karl Van Horn of Williamston, president-elect; Rowland Pruette of Murfreesboro, vice president; John Whalen of Bath, vice president; R. G. Owens of Gatesville, vice president; Mrs. Carolyn Harris of Swan Quarter, secretary and J. T. Snowden, Jr., of Greenville, treasurer.

Chowan County, one of 22 counties within the structural organization of the Eastern TB and RD Association, is represented on the board of directors by Mrs. E. N. Elliott of Tyner.

Keynote speaker for the meeting was Charles E. Buckley, III, associate professor of medicine, Duke University Medical Center; president of North Carolina Thoracic Society, Durham. Dr. Buckley's subject was "Patient Education on Emphysema." It was noted that emphysema has reached epidemic proportions. According to social security statistics, it is the second cause of disability in our society today.

R. A. TRACK MEET

Royal Ambassador members of Edenton Baptist Church will participate in an Associational track meet Saturday in Elizabeth City. The meet begins at 1:30 P. M., at Central High School. Parents of R. A.'s are urged to attend.

INSURANCE MEN

Can you sleep? Thinking of the money you are missing because of lapses, lack of prospects, time lost running back collecting, renewals not vested? Etc? Our sales organization is one of the highest paid because we have solved these problems, namely lapses not charged back to agent, leads are furnished daily. There is no collecting, and our renewals are vested. In other words, our salesmen spend their time where the money is, actually selling. Want to investigate? Contact: Branch Manager, Mr. Thomas, P. S. S. Coverage On Domestic Help

It has been 18 years since the pay of domestic employees was first counted for social security credit. Many of the children who were cared for by maids in 1951 are now paying a maid to care for their children. Just like the parents of 18 years ago, today's parents must also report the wages paid their maids.

Unlike our rapidly changing world, the requirements for reporting the salaries of household workers have changed very little. Cash wages (including bus fare if paid in cash) must be reported if it amounts to \$50 from one employer in a calendar quarter. The work done by anyone in or around the house is covered under social security. Maids, cooks, gardeners or yard men, butlers are included in this group.

The method of reporting the pay of household workers has also changed very little. The housewife is responsible for reporting the amount of wages paid the worker at the end of each calendar quarter. The report for the last quarter (January - February - March 1969) must be filed with the Internal Revenue Service by April 30, 1969. The reporting forms are supplied by your nearest social security or Internal Revenue office.

The household worker has a responsibility, too. He must show his correct social security number to his employer. Unless the number is shown on social security reports, he will get no credit for his work.

Combine Two, Three Colors

There are so many kinds of annuals and so many flower colors that sometimes combining kinds and colors becomes a problem. Here are some suggestions for 2 and 3-color schemes:

Dwarf yellow marigolds with blue lobelias or ageratums bordering them.

White zinnias with tall-growing varieties of red or yellow celosias or, if desired, use dwarf varieties of the celosias in front of the zinnias.

Calendulas with dwarf blue or white asters for a lower row.

Purple and white alyssum, a row of white next to a row of purple, used to border a path. Or, if you transplant seedlings, you might alternate plants of the two flower colors.

Stocks, with blue cornflowers in front of them and pink or white dwarf dahlias for the foreground. A wide border set solidly with blue lobelias, but with plants of Pink Heather alyssum placed in scallops amongst the lobelias. Attention getting!

Powderpuff bollyhocks, yellow, pink and white, with blue delphiniums in front of them and pink petunias in the foreground.

Annual phlox as a border for snow-on-the-mountain backed by tall Sensation strain sunnys.

When planning color combinations, consider blooming times first, so you choose flowers that blossom together.

BIRTH ANNOUNCED

late, salt and vanilla. Pour over cereal, stirring until evenly coated. With greased hands, firmly press onto bottom and sides of a well-buttered eight-inch pie plate. Chill while preparing filling.

For filling, soften gelatine in cold water. Scald cream in medium-sized saucepan over low heat. Add sugar, salt and softened gelatine. Continue cooking over low heat until sugar and gelatine are dissolved, stirring constantly. Remove from heat. Combine creme de menthe and creme de cacao; add all at once to cream-sugar mixture, stirring quickly. Chill until of the consistency of fresh egg white. Fold whipped cream into gelatine mixture. Chill until mixture mounds when dropped from a spoon. Pour into pie shell. Chill several hours or until set. Garnish with chocolate curls. Let stand at room temperature 10 minutes before serving.

The art of pie making still flourishes in the Carolinas despite the influx of the ready-to-buy pies now available in the grocery stores. Here are a couple made with molasses.

Molasses Peanut Pie
3 eggs.
3/4 cup sugar.
2 tablespoons flour.
1/2 cup milk.
1/2 cup Grandma's Old Fashioned Molasses.
1/2 teaspoon vanilla.
1/2 cup finely chopped unsalted peanuts.
9-inch unbaked pastry shell.

Beat eggs with rotary beater in mixing bowl until fluffy. Stir in molasses and milk. Add sugar and flour and beat until light and fluffy. Stir in peanuts. Carefully pour into prepared pastry shell. Bake in 450 degree oven

10 minutes. Reduce heat to 350 degrees and bake 35 to 40 minutes longer.

Molasses Rum Pie
1 envelope unflavored gelatine.
1/2 teaspoon salt.
1/2 cup sugar, divided.
3 eggs, separated.
1/2 cup milk.
1/3 cup molasses.
2 tablespoons rum flavoring.
1 cup heavy cream, whipped.
9-inch baked pastry shell.

Mix together in top of double boiler: gelatine, salt and two tablespoons of the sugar. Beat together egg yolks and milk; add to gelatine mixture with molasses. Cook over boiling water, stirring constantly until mixture is slightly thickened. Remove from water; stir in rum flavoring. Chill until mixture mounds slightly when dropped from a spoon. Beat egg whites until stiff but not dry. Gradually add remaining sugar, and beat until very stiff. Fold in gelatine mixture. Fold in whipped cream. Turn into prepared pastry shell; chill until firm. If desired, garnish with whipped cream.

While we are on the subject, these Molasses Fruit and Nut Bars are great to tuck into the lunch box or to munch with a glass of cold milk or a cup of hot coffee.

Molasses Fruit and Nut Bars
1/3 cup shortening.
1/4 cup sugar.
1/2 teaspoon baking soda.
1 teaspoon salt.
1 teaspoon cinnamon.
2/3 cup Grandma's molasses.
1 egg.
1 1/4 cups sifted flour.
1 cup finely chopped dates.
1/2 cup chopped nuts.
Cream together shortening, sugar, baking soda, salt and cinnamon. Blend in molasses. Beat in egg. Stir in sifted flour, dates and nuts. Spread in a greased and lightly floured nine-inch square pan. Bake in 375-degree oven for 25 minutes. Cool. Cut into squares or bars and sprinkle with confectioners' sugar. Makes 32 bars.

Edenton Flavor In Spring Game

East Carolina University will hold its seventh annual Purple-Gold intrasquad football game Saturday at 2 P. M. at Ficklen Stadium in Greenville.

The game is a preview of the 1969 Pirates and is sponsored by the Fellowship of Christian Athletes. Billy Wallace and Charles Swanner will be participating in the annual spring contest. Dwight Flanagan will sit this one out due to a red-shirt eligibility ruling.

Chandlers Plan Suffolk Exhibit

Due to the recent upsurge in requests for restoring and reproducing old photography, James and Jean Chandler of Suffolk, Va., decided to bring the public up to date on what can be done to preserve memories of the past for the future. Beginning May 2, they will be showing in the lobby of the UVB/Seaboard National Bank, 123 North Main Street, Suffolk, some of the work they have produced for area clients in recent years, showing both the "before and after."

Most of these photographs are quite old, daguerotypes, tintypes—some believed to be over 100 years old. Also included are some contemporary pictures, snapshots, school pictures and so forth. Many people are not aware of the fact that even though a picture is very old and faded and crumbling, a copy negative can be made and a brand new picture can be produced. With some touch up work and oil coloring, it will become a family treasure for many years to come. One person can be taken from a group, changes made in backgrounds, portraits made from snapshots or black and white made into color. Many things can be done to enhance the beauty and preserve the memory of the original subject.

The display will be interesting not only from the photography standpoint but also to see the clothing and hair styles worn by the ancestor of local people from the mid-eighteen hundreds to the present. If you have had work of this type done at Chandler's in the past and would like the "before and after" to be included in this display, contact the studio. The public is invited to see these photographs during banking hours Monday through Friday.

DELIGHTED FARMERS WRITE THEIR OWN ROLLING CULTIVATOR ADVERTISEMENTS

USED ONE, GOT ANOTHER
C. Russell Taylor, Wender, N. C.
"I bought one Rolling Cultivator and liked it so well the next week I bought another one. I cultivated 40 acres of tobacco and 600 acres of beans—from first to last cultivation—and the spiders showed very little wear. Another advantage in the Rolling Cultivator is that it does not damage the roots when cultivating large tobacco. It's better than any sweep cultivator I have ever seen."
