Planetarium Exhibits Open

Three large walk-in "visitor participation" Space Science exhibits now occupy almost the entire first floor public area at the Morehead Planetarium in Chapel Hill.

They are: "Neighbors" which relates to the Solar System; "Sun-Earth" which demonstrates Earth's relationship to its parent Star, and "Apollo Mission" which demonstrates man's round-trip journey to the Moon.

All may now be seen, along with many other science exhibits following every 50-minutes "Life on the Moon" presentation in the Morehead Planetarium on the University of North Carolina campus at Chapel Hill.
