

Savings Bonds Sales Reported

U. S. Savings Bonds sales for January-April amounted to \$22,804,473, the highest for the period since 1946—and almost 1 per cent greater than sales a year ago. This amounts to better than 36 per cent of the state's annual goal of \$62.7 million for this year.

Although E & H Bond sales were down for April, Freedom Shares showed an increase of 20 per cent over April of last year. Combined sales for April amounted to \$5,811,425.

Savings Bond and Freedom Share sales in Chowan County were \$4,878.00 for April. For the year, cumulative sales amounted to \$26,586.00, which is 32.1 per cent of the county's \$82,764.00 quota for 1969, according to Graham White, Volunteer Chairman of the Savings Bonds Program in Chowan County.

WIN WSIC TROPHIES—Pat Flanagan, back row center, presented trophies to outstanding athletes at John A. Holmes High School during an awards program recently. Winners included, kneeling left to right, Alfred Coston, Gigi Leary, John Barrow, John Sutton and Al Partin. Standing, same order: Steve Leary, Earl Chesson, Flanagan, Emmett Wood and Allan Swanner.

Around Chowan Farms

By C. W. OVERMAN

Hog Cholera: Serious outbreaks of hog cholera are occurring in North Carolina. At the present time, there is none in our immediate area. All swine producers are urged to take steps to prevent chance of contamination.

1. Cut down on traffic. You wouldn't want to take hog cholera to your neighbor or have him bring it to you. Better not do too much visiting.

2. Feed dealers and others that drive from one farm to another could be a source of infection.

3. Isolate any new hogs you purchase at least 21 days. Feed your hogs first, then feed those in isolation.

4. Disinfect shoes before going from one group of hogs to another.

5. Do not feed garbage to hogs. This is one of the primary sources of infection. The few table scraps you have could prove expensive if they cost you hog cholera.

6. If you go to a livestock market, change your clothes and disinfect shoes before going back to care for your hogs.

7. Clean and disinfect truck after selling hogs. Trucks furnished by markets should be disinfected

before going to another farm. This will be up to each farmer to see that this is done before allowing truck on premises.

8. Don't borrow or lend your boar. This is never a good idea and especially now.

9. Do report any sick hogs at once. The state and federal indemnity program will help you if you have hog cholera. They won't pay for pigs that die before they see them, however, so the sooner reported the more any losses will be reduced.

In order to eliminate hog cholera, it will take the cooperation of everyone. This is a very critical period for all hog producers. Let's work together and keep cholera out of this area. This article is in no way intended to cause undue alarm—just to point out that we have a situation which we must treat with clear thinking.

Beef Cattle: Summer weather usually means that most of our pastures are producing very little new growth. There are several things you can do to help relieve this situation. First of all, rotate pastures frequently. Secondly, maintain adequate fertilization and control weeds by mowing. Of course, you should make

use of summer pasture such as coastal bermuda if you have it.

In order to keep calves growing even when milk may drop off due to poor pasture, you can creep feed them. A mixture of one-half corn and oats by volume is a good creep ration. Soybean oil meal may be added for additional protein (about 200 pounds per ton of grain). Creep feeding pays off in heavier calves to sell in the fall.

One of the big tasks for any livestock producer is to keep his animals as comfortable as possible during hot summer months. Provide shade and be sure there is an adequate water supply.

Feeder Calf Sale: Producers who plan to sell feeder calves this fall should complete a consignment form before July 1. Please call our office if you are not contacted.

Stamped

If the first love letter you ever wrote had a 4-cent stamp, you're still young; if it had a 3-cent stamp, you're middle aged; if it had a 2-cent stamp, brother, you're a grandpa.

—Weekly Herald, Mellen, Wis.
Over the glaciers of winter the summer glows.
—Mary Baker Eddy.

Leave It To Dad

Note from teacher on Mary's report card: "Good worker, intelligent, but talks too much."

Note from father over his signature on back of report card: "Come up some time and meet her mother."

Engineless Plane Sgt. Basnight Attracts Crowds Gets Citation

BANNER ELK — There was a minor traffic jam on Highway 194 Sunday. The cause? An airplane with no engine.

Finally familiar with regular aircraft flying in and out of the swank, new Carolina Caribbean Corporation airport here, Avery County people were momentarily puzzled by the soundless plane circling the area Sunday.

It was the first of several sailplanes the company has ordered to make a glider center part of the Beech Mountain residential resort activity.

"No problems," reported Chief Pilot Bob Fielden after his first flight. "Elk Valley is going to be a great spot for soaring."

The traffic bottleneck broke shortly after scores of people got their first look at the glider.

SHERMAN, Tex.—T. Sgt. Thomas J. Basnight, son of Mrs. Martha T. Basnight, 102 East Church Street, Edenton, N. C., has been recognized for helping his unit earn the U. S. Air Force Flying Safety Plaque.

Sgt. Basnight is an electrical superintendent with the 4780th Air Defense Wing (Training) at Perrin AFB, Tex. The unit was cited for 80,000 hours of accident-free flying over a 24-month period.

The sergeant, who attended John A. Holmes High School, has completed a tour of duty in Vietnam.

His wife, Edna, is the daughter of Mrs. Willie Crumney, 43 Hawthorne Road, Edenton.

VASCAR is an abbreviation for Visual Average Speed Computer and Recorder.
