Birthday Party Held for Head Start Participants

A birthday party was held for all children attending Head Start with those whose birthdays came during the program as special guests.

The children helped to make their own hats which were very colorful and decorative. Prior to going in the lunchroom the

children played games and listened to records all together.

The lunchroom, which was decorated with various colored balloons, had a special menu consisting of turkey and all the trimmings, birthday cake and ice cream.

Favors were presented to

all the children and the noise was enjoyed by all.

Janitors, maids, aides, teachers, social workers and Mr. Beamon enjoyed the gala affair, one that will be remembered in days to come by many of the youngsters.

What to do till the doctor comes

Emergencies strike with sudden swiftness. A slip, a fall, a collision is seldom announced. So be prepared. At least one member of every family should have a working knowledge of first aid. There are books on the subject and the American Red Cross gives classes where such information and training can be acquired. We recommend that you, or someone in your household, acquire the know-how. Another worthy recommendation is to maintain a supply of first-aid medications on hand at all times—antiseptic, gauze bandages, adhesive tape, alcohol, soothing creams, etc. The cost is small and we'll be glad to assist you in your selection.
