

# Board Of Public Works Minutes

Edenton, N. C., July 18, 1969.

The Board of Public Works of the Town of Edenton and the Edenton Housing Authority met this day in special joint session at 8 P. M. at the Edenton Municipal Building.

The Board of Public Works members present: Jesse L. Harrell, chairman, J. H. Conger, Jr., Thomas C. Byrum, Jr., J. P. Ricks, Jr. Also present were R. N. Hines, superintendent, and W. B. Gardner, secretary.

Edenton Housing Authority members present: John F. Habit, chairman, George Lewis, Rev. E. C. Alexander and L. F. Amburn, Jr., executive director.

Chairman Harrell called the meeting to order and explained to those present that the purpose of the meeting was to discuss rates for electricity for Edenton Housing Authority

and also water rates for the same. He further explained that there has been an attempt to arrive at a rate that would be fair to the Housing Authority and to the Town of Edenton as well as our other electric customers. He pointed out that the Elizabeth City electric rate 9-A has been accepted by the Department of the Housing and Urban Development for the Elizabeth City operation. It was decided by the Board to adopt the Elizabeth City's rate 9-A, the same as now being applied to their Housing Authority, for use by the Housing Authority and to apply the rate in the same manner now being done in Elizabeth City.

It was also decided by the Board to offer to the Edenton Housing Authority the Elizabeth City water and sewer rate and to bill it in the same manner as now being done in Elizabeth City. It was suggested that Mr. Hines accompany the members of the Housing Authority in Atlanta to discuss this matter with utility officials there and to try to sell the Department of Housing and Urban Development on a project that would be all electric.

Chairman Harrell thanked those present for coming and being there was no further business, the meeting adjourned.

W. B. GARDNER, Administrator.

Edenton, N. C., August 1, 1969.

The Board of Public Works of the Town of Edenton met this day in regular session at 8 P. M. at the Edenton Municipal Building.

Superintendent R. N. Hines reported the successful conclusion of discussions with the Housing Authority in Atlanta in connection with electric and water rates.

A thorough discussion of various operational and personnel problems and possible solutions was held with the Board unanimously approving the superintendent's suggested solutions.

A discussion of the Morgan Park development and necessary utility easements was held. The superintendent reported the outcome of a discussion between Haywood Jones, Merrill Evans, W. B. Gardner and himself.

There being no further business, the meeting adjourned.

R. N. HINES, Superintendent.

## WHICH HEAT IS BEST FOR YOU?

Coal and oil companies, as well as gas and electric utilities work continually to convince the American home owner that he should use their respective fuel to solve his heating problem. To a great extent, the experts agree the majority of their claims are valid. The determining factor, they say, is the individual's usage of household space and the family's patterns of living.

It is generally agreed there is no one fuel that is satisfactory for all households and all families. Since the source of the fuel itself may well prejudice the advantages of it, American-Standard suggests that the American householder would do better to consult the man who is responsible for the installation and efficiency of the heating unit that uses the fuel, i.e. his plumbing or heating contractor.

Parents might do well to take a tip from their children while driving. A survey recently taken by Liberty Mutual Insurance Companies indicates that approximately twice as many teenagers use seat belts as their parents.

# News From Merry Hill

By Mrs. Ethel Winborne

## How I learned to wheel and deal

"I fell in love with a car last week, but I didn't really think I could afford to buy it. But after talking with the folks at Peoples Bank, they showed me how I could afford to buy a car financed the Peoples Bank way.

So I went to my car dealer and told the salesman I wanted to buy a car from him and I'd like to finance it on the Peoples Plan.

And that, friends is how I learned to get my wheels for a real deal."
