

PROTECT TURN ROWS AND FIELD BORDERS WITH GRASS—Now is a good time to seed turn rows and field borders to fescue. If you do not like fescue grass, allow native grasses to grow on turn rows and field borders. If these areas are covered with some type of vegetation, they will not erode and the vegetated area will provide a solid place for farm equipment to travel on. The above pictures show: a turn row that has been disked and is eroding, a field border of native grasses, and a field border of fescue grass.

Vets Qualify For Benefits

Up to \$250 for the burial expenses of an eligible deceased veteran will be paid by the Veterans Administration without regard to whether the interment is in a national cemetery or a private burial place.

W. R. Phillips, manager of the Winston-Salem VA regional office, said today the allowance is payable in the case of wartime veterans, including those who have served after August 4, 1964.

He added that peacetime as well as wartime veterans are eligible for burial in any national cemetery that has available space. The only requirement is that their last period of active duty must have ended with an honorable discharge.

Administered by the Department of the Army, the benefits include grave site and actual interment in the national cemetery including opening, closing and marking the grave.

The Army also furnished a headstone or grave marker for deceased veterans buried in unmarked private plots.

Information and assistance on filing for these Army-administered benefits will be furnished by any VA office.

Claims for the burial allowance may be filed with the VA within two years after the veteran's burial or cremation.

The claim may be filed by the undertaker, if he has not been paid, or by the party who paid the undertaker, Phillips explained.

SPICY NOTES

Spices add zest to culinary adventures. Here are some go-togethers which will prove interesting catching: bay leaves for beef stew or pot-roast; caraway seeds in liver or pork dishes; or basil in pork and beef entrees.

Fun With Food Ryland Jr. 4-H'ers Hold Meeting

By Dorothy Lamour

(This month, FUN WITH FOOD is proud to feature film star Dorothy Lamour as guest columnist.)

Sarong In Smithsonian

Believe it or not, the sarong I wore in films is now part of history at the Smithsonian Institute. After surrendering my sarong to the Smithsonian, I donned my prettiest apron, determined to be the "star" of the kitchen between acting engagements. My husband, Bill, and our two sons, Ridge and Tom, were treated to a series of gourmet dinners featuring such dishes as Clams Casino and Frogs Legs Provencal. I thought I was giving a great performance until one night the men in my life echoed in unison: "How about a plain hamburger—or some franks and beans?"

Louisiana Lasses Beans

I suddenly remembered beans my mother used to make back home in New Orleans. They were different—delicious! They were made with molasses. In fact, molasses was one of mother's favorite kitchen staples. She used it to flavor hot cereal, French toast—even glazed the holiday ham with it. The next day I prepared mother's old recipe: "Louisiana Lasses Beans" combining 1 cup Brer Rabbit Gold Label Molasses for each can of baked beans in tomato sauce. I served the beans with broiled franks, a tossed green salad and hot buttered rolls, and watched my men clean their plates in no time. Try it yourself—you'll see what I mean.

Advertising is not bragging. It is merely a device to show buyers where they can get more for their money.

The Ryland Junior 4-H Club met at the Community Building on October 17. The president, Gene Jordan, opened the meeting. Bob Jordan led in the pledge to the American flag and Bill Jordan led in the 4-H Club pledge. Bob Jordan led the group in singing Yankee Doodle. The devotion was given by Bill Jordan.

Mrs. Gladys White talked about the duties of the club officers. Projects were selected for the next year.

The club voted to let each person bring a small gift for Project Santa Claus. The club plans to have a Halloween party. A committee was selected to work with the Senior 4-H Club in planning it.

There were 19 members present. After the meeting Refreshments were served by Ernest Boyce. led by Randy Copeland. Bill Jordan, Reporter.

The 24-hour electric watch.

Everett Allen is one of the men at Veeco who make sure the supply of electricity meets the demand.

When you pour the coffee at breakfast, vacuum a rug in the afternoon, switch on a light at night, electricity is there. And since electricity can't be stored away, men like Everett must be on the watch 24 hours a day at Veeco's ten gigantic power plants.

It's hard work, involving millions of dollars worth of complex equipment. And the hours drag out at three in the morning. But the Everett Allens at Veeco get a lot of satisfaction knowing their electricity is always ready to lighten your tasks and brighten your world.
