Social Security Questions-Answers

Q. I am 79 and still work. Are they supposed to take social security taxes out of my pay—and if I become disabled can I draw disability benefits?

A. Yes, your employer is required to take the social security tax out of any wages he pays you. This is so regardless of your age. You cannot qualify for disability benefits after age 65. Retirement benefits are paid instead.

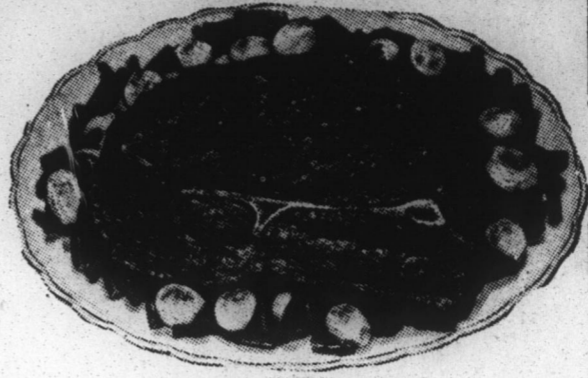

Q. My husband, who is 21, was injured in Vietnam. He had been in the Army for two years and had worked for one year before that. Since he did not have five years work under social security could he receive social security benefits?

A. If he will be disabled to work for 12 months longer, he may be eligible for benefits. For persons becoming disabled before age 31, less than five years work is needed.

What do you mean,
"armamentarium?"

A?

Sometimes physicians forget and talk their own language. Greek to most people. Now, about the mouthful above, ever hear something like this from your doctor? "... drawing on our present armamentarium to treat you..." Actually, "armamentarium" is just a doctor's word for the array of treatments and medications at his disposal. When it comes to drugs, this armamentarium is something. Thousands and thousands, literally. All are readily available in this pharmacy to help preserve your health when needed—a public service which we are pleased to render.
