## UNC Professor Writes On Daniels Era

## A Thought to Remember

By MARVIN BARHAM

In 1954 some figures were released on the cost of crime in New York. These figures revealed this interesting comparison.

When a gun-toting youth on a rampage kills a man, it costs the state about \$225,000 to send him through the courts to a life term in prison. Thus one crime is equal to the cost of a church building in which thousands each year learn something about the sacredness of life.

What is the price of decency? It is very low as compared to the price of crime.

We should feel justly proud of our great accomplishments in this country. And, on the other hand, we should take a shameful look at the high cost of our destructive, ungodly ways of life.

OUR THOUGHT TO REMEMBER: One wrong is more costly than much that is good.
