

Report From Washington By Rep. Walter B. Jones

On June 9, the House passed the Agriculture Appropriation bill for fiscal year 1971. The total amount of this appropriation was \$7,450,168,150. As reported earlier in this column, the President's budget failed to include any funds for the Special Milk Program for 17 million school children. But the Appropriations Committee restored \$104 million to continue this much needed program. Also, the President's budget did not request any funds for the Agricultural Conservation Program, more popularly known as ACP. Here again the committee, with the House sustaining the action, provided \$195,500,000. Certainly, soil and water conservation must be considered a vital part of any attack on pollution. Of interest to our rural communities of the district was the successful effort of a few of us to provide the \$44 million in additional funds for rural water and sewer projects. The committee had proposed \$56 million and with the successful amendment, the House version brings this to a total of \$100 million. Contrary to the action of the past two years, the House refused to place any limitations on subsidy payments. The consensus was that if limitations are to be imposed, they should be contained in the general agriculture bill at a later date.

endum vote for the tobacco support program to be held sometime in mid July. This vote will provide for a continuation of the support program for the 1971-73 crops. For the past two years, more than half of the total production of flue-cured tobacco has been exported to our foreign markets. The support program provides for more development work overseas which will help maintain the foreign demand. So, it is extremely important that those who are involved in the production of tobacco cast their vote both for the support program and a continuation of Tobacco Associates, Inc.

The House also passed a resolution creating a 12-member delegation from the Congress to make a thorough and complete investigation of our Vietnam involvement and to report back to the House within 45 days. This action is in answer to those who have been critical of Congress not becoming more involved in the military decisions and activities of this nation.

In other action, the House approved the Clean Air Act amendments for 1970. Among other things, it authorizes the secretary of HEW to establish nationwide ambient air quality standards, and also authorizes the testing of any new motor vehicle or engine as it comes off the assembly line in order to determine whether the vehicle conforms with the applicable emission standards. The authorization provides for an appropriation of \$200 million for fiscal year 1971; \$250 million for 1972, and \$324 million for 1973. This

compares with a previous high figure of \$185 million for fiscal year 1969.

The 1971 military construction appropriation bill was approved totaling 41 billion, 997 million. The budget estimate was in excess of \$2 billion, but the committee reduced this figure by almost \$138 million.

The House Committee on Agriculture continues to be unable to reach a compromise on a farm bill to replace present legislation which expires on December 31 of this year. I am confident that some agreement will be reached in the near future, for all members of the committee are aware of the importance of a sound farm program.

Commissioners' Proceedings

Continued from Page 3

Williams and Associates, architects and engineers of Matthews, N. C., appeared before the Board in the interest of making a study of Court House and office building plans with no cost to the County. The Commissioners told Mr. Williams they are not in the position now to state the number of offices and space that would be needed. Mr. Williams asked to meet with them on first Monday in August. He was granted permission.

Dr. Richard Hardin, chairman of Edenton-Chowan Airport Commission, gave an informative report on activities at the airport and asked for continued support from the Commissioners.

Bob Roberson, captain of Edenton - Chowan Rescue Squad, reported that federal matching funds had been approved for the purchase of an ambulance.

The Board of Commissioners will hold a budget meeting Thursday night at 8 o'clock, June 4th.

The following reports were accepted and ordered filed:

County Veterans Service Officer; Department of Social Services; Tax Collector; Coroner; County Accountant, and Treasurer.

There being no further business, a motion was made by N. J. George, seconded by David T. Bateman and unanimously carried that the meeting be adjourned.

J. CLARENCE LEARY,
Chairman.
BERTHA B. BUNCH,
Clerk to the Board.

Education is mainly the process of learning what one doesn't know, and getting the desire for knowledge.

The accident toll in this country is big enough to warrant serious attention and so, if you want to have your own life, be careful.

Make Going To Church A Habit

SEEVING GOD IN THE WORLD

International Sunday School Lesson for June 21

Memory Selection: "Be not overcome of evil, but overcome evil with good."—Romans 12:21.

Lesson Text: Romans 12-13.

Our lesson for today has as its center the difficult task of bringing about the union of a Christian's personal relationship to God and the fulfillment of his responsibilities in the present-day world. Harmony is often elusive, between these two realms, and a satisfactory answer can only be found through total commitment with Jesus Christ in observance of His doctrines.

Paul drew a sharp distinction between corporeal pressures and spiritual commitment. In today's language, we have often met people whom we would term "extroverts"—that is, people with outgoing spirits; people who love being a part of the crowd, and who "never meet a stranger." On the other end of the scale we have also met people who are the opposite—"introverts"—quiet, somewhat reserved individuals, who seem to prefer their own thoughts to the companionship of others. And somewhere in between there is a balance that can be struck.

In the realm of truly Christian commitment this same temperate attitude should prevail. The "outgoings" for which we should strive, in Christ's name, are beautifully set forth in Romans 12, verses 14 through 21. "Blessing" not "cursing" should be the order of our days. DESTRUCTIVE attitudes of mind must be replaced with the CONSTRUCTIVE. COMPASSION must replace INDIFFERENCE in our dealings with others; there must be no doubt—FAVORITISM should be made to give way to justice. None of them easy tasks, but that which is truly worthwhile is never easy—and what could be more worthwhile than walking in Christ's footsteps to the best of our ability? For it is only through so doing that we grow in spiritual stature, and be of worthwhile service to God in the world.

The Christian is exhorted to be peaceable; yet he must be mature enough to draw a line of distinction between what is PEACEABLE, and what is COWARDICE. Christian concepts are worth fighting for—but not fighting with anger—fighting with staunchness of spirit, with patience, and (above all) with tolerance and understanding.

It is readily seen, therefore, that this "balanced path" is not an easy one to tread. It demands much of each individual. It demands great inner searching of spirit—a degree of "introvertability"—for we cannot know our fellowman, much less God, without first knowing ourselves. Yet we must not be so indrawn in ourselves that we divorce ourselves from all reality. The world makes its demands on us—it makes it needs known, and we must answer those needs.

Introvert or extrovert—or a happy blending of both—the New Testaments teach that love is a road that MUST be followed if we are to be worthy of Christ. And not only when love comes

LOOKING FOR GOD

Some say you find God just as well in a garden, in the woods, or on a golf course as in a church—that God is everywhere. But be honest about it.

Are you not more apt to think of weeds, or mosquitoes, or a poor shot than you are of God? And after all, you have made this outing to seek pleasure.

But when you go to church, it is with the specific intention of worshipping. Here you engage in prayer, praise and thanksgiving. Here you mingle with people who are seeking God and have come to feel His presence. In the quiet beauty of a church you find few outside distractions, and you know that this place is dedicated to the service of God.

For peace and happiness which comes from really feeling God's presence, worship in the house of the Lord this Sunday—make it a regular practice.

FUNERAL HOME
EDENTON, N. C.

Dear friend,

The funeral director, like other professional or business men, has accepted the responsibility to serve his neighbors at a time when sincere sympathy, understanding, and wise counsel are in great need.

His compensation cannot be measured in monetary returns alone, but also in the personal satisfaction of rendering an important service to his community.

Respectfully,

H. B. Willford

MOTOR TRIP?

You'll enjoy it more after we lubricate with Texaco's famous Marfak.

Before you start out on your motor trip, stop in for Marfak lubrication. Marfak is Texaco's tough, chassis lubricant that won't jar out, leak out, or dry out. Resists wash out... stays put to protect bearings for a thousand miles and more.

For a safer, smoother-operating car, you can depend on Marfak. It's just one of many outstanding Texaco products we have for your car. Good reasons why more and more people trust their car to the man who wears the star... the Texaco star.

Rudolph Dale
