HOW TO MAKE YOURSELF A STAR

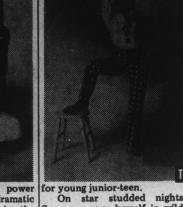

Sew yourself star power with a collection of dramatic new looks as shown in the Summer issue of McCall's Pattern Fashions Magazine.

This wardrobe extravaganza stars Susanna Miranda, a newold pro when it comes to fashion. Susanna, who will make her debut in the Warner Bros.-Seven Arts film, based on the novel "Nobody Loves A Drunken Indian", sews for fun and fashion.

So take a tip from Susanna sometimes the understated look is the biggest hit. Like trim shirting jammed with flowers and then tucked into whistle-slim pants, wrapped round the middle with an elegant chain belt. Pants and shirt are McCall's Step-By-Step pattern #2381.

For more of that sporting life, Susanna checks into pencil slim pants. Sew them plain or fancy, either way they're guaranteed to gather rave reviews. She ties up this great put-together with a softie shirt #204. that's laced for action, with

On star studded nights, Susanna wraps herself in wild, exotic jungle flowers. Here, she slips into a real scene-stealer that sweeps clean to the floor. A hi-rise neckline and lowcomer to Hollywood but an down scooped back add dramatic detailing. Those grand

Motorists are not the only ones who use the streets and highways. Pedestrians often jaywalk, children hidden by parked cars dart into the street, cyclists sometimes ride as if they were in an empty field, and animals give little heed to traffic.

All such irresponsible behavior is aggravated during bad weather, when people become more impatient.

Keep your eyes moving to spot these potential emergencies. Don't depend on others to know the safety

SLOWPOKE DANGEROUS

The slowpoke on the expressway is just as dangerous as the speeder. If traffic streams past you or you are lane, speed up or get off the potful in the morning to enjoy expressway. You are a haz-through the day, try coffee ard when you block traffic.

TREAT YOUR EYES WITH CARE

You have only two eyes and since much of your success and happiness in life depend on them, they should receive the best of care.

This should be easily under-

stood, almost taken for granted. But downright carelessness and neglect-by adults as well as children - cause much eye trouble.

Eyestrain can be expected for in our busy society there is an endless river of paper work, much of it involving fine print which overtaxes the eyes of stenographers, typists, auditors, clerks, etc.

But, according to Barnes-Hind Pharmaceutical officials, certain precautions can be taken to reduce the danger of eye infection of any kind. The company has a variety of solutions and accessories to keep contact lenses clean. Since there are about 120-million people in the country with eye defects of some kind - many wearing contact lenses-this is a worthwhile health tip.

Parnes-Hind points out, too, that since improved contact lenses can now be worn for much longer periods of time, their maintenance is of even greater importance. They explain there is no danger in such lenses, provided they are properly fitted.

Most doctors recommend that contacts be limited to no more than 10 or 12 hours per

day. Children with poor vision. particularly of the pre-school group, are adapting quickly to the use of contacts. They suffer from a variety of vision de-fects which regular eyeglasses

do not correct.

Nearsightedness; far-sightedness and astigmatism (irregular vision) are among the ail-ments for which contacts have been beneficial. In the case of children these are usually rec-ommended by doctors rather than schooling in institutions

for the blind.

The habit that many teen-The habit that many teen-agers have of pushing the con-tact lenses off the cornea be-neath the upper lid while sleeping should be condemned and corrected as soon as de-tected. This practice could ac ich the eyeball and lead to infection or more seriour complications.
