

## Aces Crush Perquimans; Face Ahoskie On Friday

Edenton Aces traveled to Perquimans High on Friday night, where they defeated the Pirates 26 to 0.

Friday night they play the Ahoskie Indians on the Indian field, directed by Coach Marion Kirby.

Rouse picked off a Joe Bunch pass on the second play of the game to give the Pirates good play position. They could not make ground so the ball was returned to the Edenton 41.

Several plays later Charles be intercepted by Harrington on the Aces' 46 and was carried to the 28 but the Pirates once again could not get ground so they gave it back to Edenton on the 31.

Then Jesse Moring and Joe Bunch alternated in moving it up to the Pirates' 19, from where Payton passed to Steve Leary and he carried it for a 19-yard score.

On the next play Edenton

got the ball on the Pirate 40 and an attempted fake field goal try failed and the Pirates took over.

On the Pirates' play they attempted to make a field goal but their try failed.

Neither team was able to make a touchdown before the

## Golf News

By LEW DEXTER

The club golf banquet will be held Saturday, October 24, here at the club. All members are welcome to attend, and will only be \$1.75 a plate. Let's all attend and make it a big affair and watch the winner receive trophies in both the ladies' and men's club championships. For information and reservations call Joe Thorud 482-2121.

Good news! The greens are coming out in good shape and we are already cutting

Early in the fourth the Pirates moved from their 20 to the Edenton 38 but fumbled it away on the fourth and two. The Aces made a good play to fumble and the ball was recovered by the Pirates on their five.

Two plays later Tillett fumbled again and Paul Waff saved the ball for Edenton on the two. Joe Bunch rammed over the two-yard line for the score and Tommy Fleetwood made the two-point conversion. The Aces then led 20 to 0 with one quarter left.

Nearing the end of the game Moring made 14 yards to the 7 and two plays later Fleetwood passed three yards to Steve Leary in the end zone with seven seconds of play for the final score of 26 to 0.

Seven seconds of play were left when fullback Jessie Moring suffered a broken leg and was carried to Norfolk General Hospital for treatment.

I want to urge all players to please repair their ball marks on the greens, because if you do not repair your ball marks on winter greens, there will be a bare spot there all winter. So if you want good winter greens throughout the winter, please repair your ball marks. If you don't, you'll have greens with a lot of bare spots on them and greens like that do not put very good, and they look real bad also. You have good rye tees now, so please do not dig them up if you want good looking tees throughout the winter. Also take care of your course so that you can be proud of it, and help the club save money. If you dig it up, it costs money to repair it.

Some good news to golfers from Perquimans County. They are invited to pay green fees and play our golf course whereas they were not allowed to do so before without being a guest of a member. Keep your head down and follow through.

## Leary's Stock At Elon Is Up

ELON COLLEGE — Curtis (Gigi) Leary, a freshman flanker from Edenton, has worked his way into a starting position for Coach Red Wilson's Fighting Christians in his first year at the school.

Leary, a 5'10", 165-pounder who was a great all-around athlete at Holmes High in Edenton, ran the ball three times and picked up nine yards rushing against Carson-Newman last Saturday night. He also latched onto one Steve Rumley pass for an additional seven yards.

After the game, Coach Wilson was high on the youngster.

"Leary did a good job in his first varsity start," smiled Wilson. "He did a good job blocking, running and receiving. He makes the future look brighter at Elon."

## Legal Notice

### NOTICE OF RE-SALE OF LAND

North Carolina, Chowan County. Whereas the undersigned acting as Trustee in a certain Deed of Trust, executed by Catherine Francis Robey and husband, Eugene P. Robey and recorded in Book 87, page 389-390 in the office of the Register of Deeds of Chowan County foreclosed and offered for sale the land hereinafter described; and whereas within the time allowed by law an advance bid was filed with the Clerk of the Superior Court and an Order issued directing the Trustee to resell said land upon an opening bid of \$49,400.00.

Now, therefore, under and by virtue of said Order of the Clerk of Superior Court of Chowan County, and power of sale contained in said Deed of Trust, the undersigned Trustee will offer for sale upon said opening bid at public auction to the highest bidder for cash at the door of the Chowan County Court-house in Edenton, North Carolina, at 12:00 o'clock noon on Wednesday, the 4th day of November, 1970, the following described real property located in First Township, Chowan County, North Carolina, described as follows:

A tract of land in First Township, Chowan County, North Carolina, bounded, now or formerly, on the North by East by Herbert Small, on the South by Robert Morris, on the West by Queen Anne Road; more particularly described as follows: Beginning at an iron stob on Queen Anne Road in the line of George E. Goodwin; thence South 70 degrees 30 minutes East 1,335 feet to a gum; thence South 57 degrees 30 minutes East 510 feet to an oak and pine; thence South 8 degrees 45 minutes East 1,380 feet; thence South 10 degrees 15 minutes West 1,090 feet to a big ditch; thence due West 515 feet; thence North 57 degrees West 2,895 feet to Queen Anne Road; thence with said road North 30 degrees 15 minutes East 1,692 feet to the place of beginning, containing 140 acres, more or less.

This sale is made subject to all unpaid taxes and assessments which purchaser agrees to discharge.

This the 20th day of October, 1970.

W. O. MCGIBONY, Trustee.

John W. Graham, Agent and Attorney for Trustee.

## Edenton Native In Spotlight

(Editor's Note: The following is a reprint from the Hopewell (Va.) News.)

This is the second in a series featuring teachers at Mallonee School who are being spotlighted on the school's library bulletin board as their birthdays occur. Today's subject is R. Ashby Tarkington, Jr., dean of students. The articles are prepared by Miss Pamela Saunders, library assistant.

Mr. Tarkington was born August 13 and grew up in Edenton, N. C. Edenton is a small conservative but historical town on the Chowan River and Albemarle Sound. Mr. Tarkington is the son of an Edenton businessman and a North Carolina District Court Magistrate.

He was graduated from John A. Holmes High School, Edenton, in 1960. He received his Bachelor of Science degree from Campbell College in 1964. Furthering his education, he attended MCV in Richmond until 1965.

Ashby Tarkington received his Master of Education degree in Administration and Supervision from Virginia Commonwealth University in Richmond. (A copy of his thesis is being placed in the new VCU Library by Dr. Richard Vacca Assistant Dean of Education, VCU).

Mr. Tarkington taught physical science at Chester Intermediate School in Chester from 1966 to 1968, was Science Department chairman for the 67-68 school year. From August, 1968, to June, 1970, he taught Earth Science at Thomas Dale High School and taught chemistry in summer school.

Mr. and Mrs. Tarkington were married on April 16, 1965. Mrs. Tarkington teaches fourth grade at Enon Elementary School.

Mr. Tarkington stated that gardening was his favorite pastime and that music was his hobby, whether he is listening or playing it.

### Patient Alert System

Patients in hospital intensive care units can be monitored by a new mini-computer system alerting nurses to any changes in condition, according to Westinghouse Electric Corp.

Any change sets off an alarm in a central nurses' viewing station. The mini-computer also can be connected to other computers in the hospital, permitting the hospital to develop a totally computerized patient care and information management system.

## Council Backs Amendment 4

The Edenton Town Council has voted to approve a resolution asking citizens to specifically vote November 3 for Amendment No. 4 to the N. C. Constitution which would strengthen the fiscal power of local governments.

Amendment No. 4 would: (1) remove certain limitations of what constitutes municipal debt; (2) give the General Assembly the power to determine what "necessary expenses" of local government should be; (3) eliminate the collection of the poll tax; (4) enable a broadly-based "urban service" tax to be levied for special purposes; and (5) remove the 20c per \$100 tax expenditure limit of county governments for their general fund operations.

The Council also urged its citizens to support the other six proposed amendments to the Constitution and vote for their passage.

### CANCER PATIENTS IN THE SPOTLIGHT

The American Cancer Society has long been a leader in cancer research. Now it is focusing more directly on the needs of the patient who is currently suffering from cancer.

For the first time, the Society has appropriated \$1,000,000 for a national program of clinical investigation to help cancer patients. The program is designed to speed research findings to the patient.

The ACS also has major programs to help rehabilitate persons who have had major larynx and breast surgery. The "Reach to Recovery" program sends women who have had successful breast surgery into hospitals to help recent mastectomy patients. Through its support of the International Association of Laryngotomies, the ACS helps thousands of persons who have lost their voices to cancer to speak again.

Now, the Cancer Society plans to extend aid to other groups of persons who have undergone treatment for cancer. It is an ambitious program, a program with heart, as important as the work being done in countless laboratories worldwide.

## Ready! Man Your Bottle Stations

More than 3.8 million pounds of glass bottles and jars have been collected by Owens-Illinois since its first public container collection project two years ago.

Collections are held regularly in 18 communities where the company has container plants. In addition the com-

pany currently is testing a glass-mobile unit, a truck-trailer which can be parked at a high traffic location and moved to a container plant when filled.

About 30 tons of the bottles and jars will be used as aggregate in "Glasphalt" paving projects.
