

**FORMER ENEMIES:** A few months ago, these men were Viet Cong militia in an area that had been under communist rule since 1946. Now, re-armed and re-outfitted, they are fighting for the Saigon government. More than 200 of them, under their own leaders, came over to the government's side under the Chieu Hoi (Open Arms) program. The amnesty project employs advisors supplied by the U.S. Agency for International Development (AID).

A popular fallacy is that, if a little medicine does well, a larger amount will do better. This is dangerous self-medication, as an overdose may be worse than the disease itself. When relief is not immediate, resist the temptation to increase the dosage.
